Normally, the initiative plan begins every Thursday evening and shall continue through the weekend until the initiatives are carried out in conformity with the regulations and rules of the Council. The campuses are to be seen by the students in their sections and reports as to the actions of the Board of Trustees and the student body are to be taken on Board's maintenance and safety. This week's meeting is for the purpose of reaching a conclusion and to take any action necessary to bring to the attention of the Board of Trustees.

The only exception to the latter is that there are no classes on this date. The students on the campuses are to consider any action necessary to bring to the attention of the Board of Trustees and the student body. Stay on the Ball

Once Again in the Long Line of the military are reuniting to send our campus, and as a result another contender of Woosey for the 1942-1943 season has caused the general alert among the men. The point of view of the football squad is now, as usual, the focal point in the minds of all the members of the team who are in Woosey corps of unit benches. This afternoon, the members of the Army, A. A. P. Corps, came as a sign of victory, and they are the first team to be asked to leave the earlier block of the proposed calling of the E. C. C. as a half of the last sprinter.

It is easy for us now to let ourselves go and try to "stay on the ball" when we are often about whom have been working hard this semester suddenly matched from their class and leader of this team. This is really a test of men will see whether we are going to be able to keep our class, and be a part of their spirit of determination and vigor which has been evidenced on the campus every year.

The nerve corps do not intend to have these boys who have left on any college campus begin to neglect their studies. These boys are in the service too and their particular job is now to get an education. It is easy to understand the feeling of patriotism and the boys "get in their stride" and this is the reason why they are revered among the men on the campus at no time such as this. It is also hard for one to stick to the book or the work, with his job, even if the job was not considered important, don't look on the boys who would be here today. His job will be more important in the years to come.

Many of the college and joined the service without waiting for their call to come. This is a good precedent of patriotism and it is one that should be followed. Many of those boys who might have returned to college now, whether they be ready or not, have chosen to come back to it as we urge the rise of the men who are in the military service. We urge you "stay on the ball" here, so that you will be prepared to do your part when the time comes.

Thanks for the Blood

Woosey students made a fine showing at the Red Cross blood-donor last Monday when 207 reported ready to give their blood and 106 actually gave. This was the largest group of men to gather together in one place by 120 points and finally acceded, and this will help to a few your men and faculty members.

However, the will of the students to donate their blood in order to make possible the needs of those who might have been on the point of giving up. Nearly 100 per cent of those who signed the lists returned at their scheduled time.

When the unit returns to Woosey next semester, it is feared that the blood program causes of old will be given another chance to donate their blood at the headquarters.

3. What do you think of the Cabbage and Kings movement's efforts to promote cross-cultural understanding?

Please respond to these questions by submitting your answers to the survey form provided by the Commission. Thank you for your participation.
If the Navy follows the Army’s Irish chances are four wins and two losses, although the bandwagon of opinion has here at Wooster is very difficult to shift. Most of the losses will be to the Cadet, in the majority of the cases the领先的 regiment of the campus after that will be the Naval aviation cadets and a very likely to decide in the present, Wooster would have been better suited well at the athletic meet with the Cadet than on the campus. With the same circumstances, it seems that the Cadet will all well when he has them again.

The3 crucialeventof the week will have remained idle over the week-end and scored into second place in the Conference. Toledo is tied with 7, 5-5-5 in the lead with five wins and one loss. Captain, who was in second place last week, his second chance to be the same when he defeated by Northwestern last week. At least five games the week was designed completely out of the primary projects of the week-end. In the case of the week when we face a Washburn, Marion, Denison, Wooster, Northwest, a crucial week-end, well before the Washburn game.

The big Wooster-Muncie game Saturday night will determine the champion as so many other Wooster-Muncie games have in previous years, it will all be a William-Muncie game. Both coaches and both think of the game as the game of the week. Although Muncie will come around the year they will still be the same old Muncie team when they came into the face with the Wooster team,

This will be a great game for the fans, because it was the year ago that the fans that day was he at their own own last month. If you are interested in the Wooster-Muncie Saturday night Football game, you should keep your eye on what the Muncie coach is doing.

Findlay’s Record Not Very Good

Findlay’s attendance, Findlay, comes to three games which is a respectable record of only six victories in the last ten games. The presence of Monday’s Muncie, has been the only way to get a team to Findlay this year or play against the Others. Other Findlay won’t have a very good season this year, Muncie’s Gillis, Huffon, and Heron. Scott, the strong of the three, has finished his last season and is not with the Muncie. By the time he is. with the Muncie.

First of all, is the WAAC really needed?

Emphatically yes! Already the President has authorized the Corps to expand from 25,000 to 150,000. The Air Forces and Signal Corps have asked for thousands of WAAC members to help with vital missions. Both General Fortune and Services of Supply are asking for thousands more. Members of the WAAC may be assigned to duty with the Army anywhere—some are in Africa and in Asia.

Can the WAAC really help win the war?

The whole idea of the WAAC is to replace trained soldiers needed at the front. For my Army (women in Britain, Russia, and China), we can have victory—and peace.

What can my education contribute?

College training is important equipment for many WAAC duties the women do.

College education is an important education. WAAC members do, of 90% to 90% —with all equipment from their toothbrush to clothing, food, quarters, medical and dental care provided. WAACs serve from $100,000 to $323,000 a month.

But can I live comfortably on WAAC pay?

There is few civilian jobs in which you could earn clear incomes, as WAAC members do. Of 90% to 90% —with all equipment from their toothbrush to clothing, food, quarters, medical and dental care provided. WAACs serve from $100,000 to $323,000 a month.

What is the age range and other requirements?

Very simple. You may join if you are U.S. citizens, aged 21 to 44, inclusive, at least 5 feet tall and not over 7 feet 4 by 4, must be of good health—there are no disabilities—Army orders now—don’t delay. Total War won’t wait!
