This Book is brought to you for free and open access by the "The Voice" Student Newspaper Collection at Open Works, a service of The College of Wooster Libraries. It has been accepted for inclusion in The Voice: 1941-1950 by an authorized administrator of Open Works. For more information, please contact openworks@wooster.edu.
**Eminent Speaker Presents Review Of Dutch Affairs**

On Thursday, Nov. 11, the students of Wooster College will have the opportunity of hearing Philip Hans Hiss, lecturer, author, photographer, anthropologist, and student, lecture on the Netherlands East and West Indies.

These Dutch territories are playing a vital role in the present world conflict, and the question of the dissolution of this country two years ago. He has just completed another book, Netherland America, concerning Dutch territories in the Caribbean area. Both of these books are full of remarkable true-life photographs of the people and scenery. Many of Mr. Hiss's photographs have been exhibited in New York and museums throughout the country.

**Advisory 19 Years**

Mr. Hiss was born in Brooklyn and has traveled extensively in the foreign world. This 33-year-old author has taken an unusual number of nautical, biological, floral, and industrial trips in this country and peoples. He has lived in South America and Hawaii, and has visited China, Japan, the Malay Peninsula, the Philippine Islands, the South Pacific, New Zealand, Africa and Central America. He is a Fellow of the American Geographical Society, a member of the Academy of Political Science, the American Instituthe American Philosophical Society, the East Indies Institute, the East and West Society, and the Explorers' Club.

Mr. Hiss is doing much to promote international understanding. He believes—and practices his belief—that the only true way to learn about the world is to meet the other people to live with them on a basis of equality.

**Club Corner**

Club attendance doesn't seem to have fallen off in spite of the run of good movies downtown. Students find time for both in their weekly schedule.

The "Culture, Geography, and History of Russia" was the subject at an open meeting of the International Relations Club on Nov. 3. Margaret Goldsmith discussed the culture of Russia, Rob Furbank talked about the geography, and by Wade, the history of Russia up to the present. Wednesday, Nov. 8, will be the history of Russia since the Revolutions.

This meeting will serve as a background for the meeting on Nov. 17, when the American literature Club will discuss Russian literature. The U.S. on Pasteur and Lenin will meet on Monday, Nov. 8 at 7 p.m. and will discuss the subject on Nov. 8.

"What is Sky Blue Paint?" and other similar titles will be the subject of an upcoming theme to be announced.

(Continued on Page 4)
Armistice Day

O N NOV. 11 we shall celebrate Armistice Day, the signing of the Treaty of Versailles which marked the end of World War I. Then, as now, millions had visions of peace and freedom. Time has proved the fallacies of their method as proclaimed by the Versailles treaty. However, it will not be long, we confide, before the same end is achieved with the open organization of method and lasting peace and justice.

Although we will offer silent prayers of gratitude for all the men and women who have sacrificed their lives for a better world, we must work hard for the world of our vision. As the old adage states, "Actions speak louder than words," so we must not give mouth to the dead, but must strive for international cooperation. By the same token, this must have power delegated to the states of the world. In order to do this the governments must be backed by a powerful public opinion. This is your responsibility. Think how to remember it. Work for it. Only if you are active in this direction will you face Armistice Day with a happy heart. Promise those who have fought for us and of whom you are today that you will do your part to bring, "Peace on earth, good will to men."

Eventually, Why Not Now?

W E HAVE reached the halfway mark in our work for the first semester of this year. Midsemester exams and scores of small quizzes have marked our past, and have been made conscious of the opportunity which has been presented to us at the same time?

Now is the time to do some checking up on yourself. The time to do this before the final examinations comes. It is not too late yet to turn over the new leaf you promised to at the beginning of the year. In fact, it is almost better now than before. Because now you have your shortcomings, omissions, and failures fresh and clear in your mind. You don't have to dig into last year and try to remember where you fell down or when it was you felt you could have done better. And it is this year's schedule that you are coping with to see what can be done with it.

This are the days when "Full Speed Ahead!" and "Keep Progress" are as definite factors as ever, and that great war-time expedience but also for our personal lives. But unfortunately there is still the tendency among some of us to do too much on the past or what may happen in the future. An attempt that is made but what a shame if it blinds us to the opportunities of today. Today is a wonderful time, let's use it!

Just a Suggestion

JUDGING from the enthusiastic response received the other morning in chapen by Benno Rahnsief, violin virtuoso, it would seem that the students are in the start of music for their chapel programs. Why not have more of it?

Besides outside chapen, the campus itself offers insurnumerable opportunities for us to indulge in our love of music. Perhaps a series of student concerts may have been arranged. And more than can be said, a comment has been voiced to the effect that a few programs in which the students were permitted to sing their favorite hymns during the chapel hour would be more than acceptable. Group singing of old and new popular songs would be enjoyed even more. It used to be done, why not now?

Cabbages And Kings

BY JOHN BATHGATE

Any person who has not, at one time or another, had experience with the care and feeding of food can hardly possibly appreciate how difficult it is to get the facts straight. We've always noticed, for instance, that when a story is assigned, the reporter usually gets a half-dozen phone calls to find the party or parties who will tell what's going on. After the interviewee has interviewed twenty persons, the writer starts to be ashamed, he knows it had better be time to look for something else to do. Just before press time, the date of the meeting (if the story is about a meeting) is changed, and that adds to the general confusion.

Well, as a result, even the most alert story often appears in final form like this:

NOTED SOPRANO
TO SIN IN CHAPEN

Also John Zimpf, contemporary American singer, is due to address Chapen on Thursday, Oct. 28, 1943. His subject will be "The problem of prostitution: Their Significance and Relation."

Mrs. Zimpf was born on Oct. 19, 1911, in 1943, and is a son of her father, who died several years before she was born. She re-

oved her education at Morgan

and has been graduated de-

ors by Harvard and by the Illi

School for the Blind. Mr. Zimpf

a, for a number of years, been

the sports editor of his faculty associated with the League for

Unmarried Fathers.

Following the concert, the Chapen Literate will enter Miss Zimpf on the following day as previously an-

ounced. Faculty, students, and their visitors are especially invited to attend.

The Department on Reduction of the Year's Words, Put It Simply But Clearly, Division, has awarded the coveted "E" to the man who 

ived the following for a record for the New of the War:

"We wish it were otherwise. But frankly, we don't think that Get Mickey's Powder and Your Beauty Balm will build morale of this week. Help preserve your life. It is in your best interest to try to make it look pretty which they perform brilliantly. Because, it is a stal

Staff N' Nonsense

For Spare Time

If it suddenly came to us the other day that maybe we should pass on that empty lot on the outskirts that folks rave about. A general absence of our newspaper and general no experience for our comment for our silence. It once comes to us the recommendation of this, to write. From the Land of the Silly People by our Irving in this manner. This is the story of his years in the land of the people of Greece and his packed with excitement. If you're in a philosophical mood, you can contact me and I'll quote Alphonse de Lamartine and Laughter will provide plenty of entertainment. In addition, I've written a letter which has written several other books, all worth your reading, among them being the book of Lithuanian Literature. Having come to the sublimation to the fence, we guarantee that The Department of a Sunbeam is a superfor whatever you ali. It's by S. Fredman, that is a matter among none, whose stuff you read in The New Yorker and E. E. P. The fact that it is a funny book is a specialty good—a perfect satire. For all of you, however, here is something that is truly sentimental: Vincent Barney's poetic jewel. The most delicate and a finely readable subject matter for this narrative is the growth of America, because we are the people.

Herewith just a few suggestions for your enjoyment of the other. We are members of the students, the WKTH, EWEK Godfrey for a voice and for fun in the future. The Spotlight Bells at 8:30, also on the WKTH, are the best kept secret on Sunday over WKTH and the Radio Reader's Digestier Sunday. The WKTH is a good suggestion. It is really found out by now that Fred O_KHRIN will sing the 10:00 song so you needn't miss dinner.

Tips you want to get for your enjoyment of the other. We are members of the students, the WKTH, EWEK Godfrey for a voice and for fun in the future. The Spotlight Bells at 8:30, also on the WKTH, are the best kept secret on Sunday over WKTH and the Radio Reader's Digestier Sunday. The WKTH is a good suggestion. It is really found out by now that Fred O_KHRIN will sing the 10:00 song so you needn't miss dinner.

Three Months To Three Days

The Dean was ready for the possible trip to Philadelphia, however, a trip taking a deep bath, put all his timetables immediately at ease by informing them that that the last day of the trip to Philadelphia was to take a three month's course in Navigation in three days from Navy officers who would help Professor Dean to establish the books.

He further assumed his attractive and his pleasant, but that there would be plenty of travel with the traus. The Dean subsequently proved to be correct in both of these as

The Dean then called the group to attention and dismissed them from their places.

"The train leaves at 5:45 in the evening and is autos for all passengers. At 10:00 we can see all the marked cars, "Mamoulin". Are you sure you are to check on Bradford.

To make a long story short, the students packed all their bags again for three days and came back to your warm people this morning. They discovered that Navigation was an important course with a lot of drudging, and later they discovered

The Wooster Voice

Women's Athletics

By LOIS HAYENGA

For many years, football has been a popular sport for women. Now, with the advent of women's football, the game is gaining popularity. Even with limited resources and equipment, the women's football team is doing well. The team has played several games this season and continues to improve.

Bend it Like Wooster

The Wooster football team, under the leadership of Coach Bertelli, is off to a promising start this season. The team has won its first two games and has its sights set on a successful season. The team's success is not only due to the talent of the players but also to the support from the fans and the Wooster community.

The Future of Women's Football

As the popularity of women's football continues to grow, the future looks bright for the sport. With increased visibility and support, women's football has the potential to become a mainstream sport. The Wooster team is a shining example of how women can excel in sports and challenge traditional gender norms.

The Value of Women's Football

Women's football not only provides physical exercise and competition but also fosters teamwork, leadership, and resilience. The Wooster team is a testament to the power of sports to bring people together and create a sense of community. The team's success is a source of pride for the Wooster community and a testament to the potential of women in sports.
