This Book is brought to you for free and open access by the "The Voice" Student Newspaper Collection at Open Works, a service of The College of Wooster Libraries. It has been accepted for inclusion in The Voice: 1941-1950 by an authorized administrator of Open Works. For more information, please contact openworks@wooster.edu.
Student Planners Hold Conference During Vacation

The College of Wooster will play host to the Student Planning Conference of the Bureau of Student Winter Movement on our campus Dec. 28 through Jan. 3. The work of this conference has been greatly aided not only by Dr. W. H. W. and co-operation of its leaders, but also by the national interest in whose rooms will be occupied by Conference delegates.

About 500 chosen students will attend the panel discussions and a debate among panels, each of whom will be led by outstanding, qualified speakers. There will be three sets of seminars and a forum and respectively the foreign areas of the modern world, some of the pioneer areas of American life, and a course on modern civilization.

Student delegates have been chosen by the University Commision and the National Internat- ete Christian Council, each of which includes under student each for the coming semester. This figure, however, does not include the women who will lead the conference discussions. As an instance, Dr. John A. Mackey, Dr. Harold J. Waddell, Ruth Isabel Shadrave, B. H. Edwin Eapy, and others. Daily worship services will be conducted in the Student Union by the Rev. E. C. Lockwood, secretary of the Woman's study club, and in the collegiate Sunday evening by James P. Alter. The 8:00 seminars will be open to the public.

Committees have been named for classes, seminars, and the like.

Club Corner

Come snow or howl the daily cares on. Let's ignore and find out what's cooking and what's cooking. As an instance, the French club on Monday, Nov. 22, Professor John W. Ophurse will present a talk on French journalism now meets at 5 p.m. Entering into the sociable intellectual spirit, the members of the psychology club took turns at their meeting Tuesday, Dec. 23. Typical questions were on the topic "Trial and Error" led to the fact of the total. Their next meeting will be a Christ- mas party at Dr. Sharp's house.

For the Phi Alpha Theta, Fred Evans will review Spengler's "The Decline of the West." Estelle Sharp, Woman's home's A. K. Allen will remain at an English reading group.

Ellen Vaugh will present a paper on "Pencillin--the New Wonder Drug." This paper will be read Tuesday in the chemistry building.

Pumoke will meet at 6 p.m. with special guest, Mary Lou Baker, president of the Student Council.

Eleanor Homan, Elise Smith, and Betty Waterhouse all planning to read original works, Ellen Sharp, for her tradition and repuation, will

Freshman Pledging

The Kremen Council last Mon- day evening held its annual pledging con- ference for Sections to pledge freshmen pledges. The conference will continue until bids from the Sections are sent to the dean's office Tuesday, Nov. 30. Freshman pledging will continue Wednesday, Dec. 1, and their re- quests must be in by Chapel time on Thursday. Religious activities Sat- urday, Dec. 4, will conclude pledging Wednesday.

Week of Prayer

"Our Responsibility to a Newly World" will be the theme of Dr. Clifford E. Fussell, has been awarded for the Week of Prayer at Wooster, Dec. 5-17.

Dr. Barbour, who is pastor of the Second Presbyterian Church of Kansas City, has experienced with young people

International Club to Sponsor Week of the World

The International Relations club, will sponsor a Week of the World, probably during the week of Feb. 6-12. The club will be responsible for chapel speakers during that week and has arranged for several lectures concerning international problems. Following the evening lectures discussions will be conducted in the dormitories. In addi- tion, Mr. Theodore BERSON will arrange a display of war posters chairman of the Week of the World is Jean Sommers.

The club voted President Betty Steinle and Janis Howe as delegates to the Regional International Relations Club conference, sched- uled to meet this Friday and Saturday, Nov. 19 and 20, at Minne- sota College. Delegate will represent college students for their nation of four states.

One other project of the club includes guidance of an exhibit "Times of Decision," collected in the college library. The display includes periodical literature, maps, and source material on matters of international significance. A special feature is a collection of information regarding countries which have experienced change. The exhibit is altered every two weeks, and lasts in coordination with the club meetings.

Publicity for the Wooster Com- mittee is being presented by the committee club handling advertising and arrangements. A separate International Club commit- tee sponsors periodic Gallup Polls and

Committee to Honor Prayer at Graduation

As a meeting held Saturday, Dec. 13 in the Trustees Room, it was decided that the June 1944 Commencement shall be known as "The Wristen Commencement." The committee was composed of alumni, trustees, synod members, faculty, a n student representatives.

Capit. John Park Receives D.F.C.

Capit. John C. Park, former stu- dent of Wooster, has been awarded the Distinguished Flying Cross, the War Department re- sponded for his participation in low-level bombardment attack on the Poatai oil refineries in Romania on Aug. 1. Capt. Park was born in China of missionary parents and came here for his education, where he attended both the Wooster High School and the college. While in Wooster he lived at Livingston Lodge.

The attack in which Capt. Park was concerned is said to be one of the most daring and dangerous ex- ploits of American airmen in this war, and reportedly destroyed 42% of Romanian refining capacity.

Big Four Exceeds Original $1500 Goal

$169 has so far been pledged to the Big Four by the collective effort of funds from the solicitors which has been pledged above the total of $1500. One of the pos- sibilities under consideration by the committee is that of these extra funds to the World Student Service Fund. The other members of the committee are Dick Caver, Bob Fernberger, and Jack Purdy.

The chairman of the drive wishes to thank the solicitors for their help during the drive, and to thank those who pledged their assistance in making the drive a success.

WSGA to Open Girls' Smokers

Smokers in the women's dormitories will be provided as the result of a recommendation made by the Women's Self Government Asso- ciation. This recommendation was presented and passed by the fac- ulty and by the trustees last week. Although no definite places have been designated for the installation, the W.S.G.A. has plans to pro- vide one in Babcock and one in the Hall. A committee of students and administration will investigate potential places.

The statement as passed by the trustees is that provision be made for the use of smoking rooms by students to eliminate undesirable smoke- ing in public.

Jade Ackerman, administrative president of the W.S.G.A., con- firmed that some of the women had considered this matter of the necessary placement of smoking rooms, but no action was taken as it was felt that this was not a subject for such action. Now that the ad- ministration has approved the plan, we hope that it can be put into effect in the near future and that students are entitled to the privilege.
Thanksgiving

THANKSGIVING to many of us may mean a festive day, with the dinner table filled with food that seems almost unimaginable. It may mean a family reunion with uncles, aunts, and cousins gathered around the table and a warm feeling in your parents' hearts and in your own. It may mean a gay time with no thought of studies or serious things.

To others it may mean a lonely dinner in a deserted dormitory room, with a feeling of loneliness that is worse than being alone from home on a holiday when the rest of the family are together. To many in the year began it meant a freezing, starling cold, for the north winds of the tropics or the realms of snow and ice. It has meant the heat of battle or the cold of war.

And for still others it remains what it was in the beginning—a day of Thanksgiving. A quiet service of worship in the little church, at home, or any church service anywhere on that day, due to fasting. And a possible last but not least, many of you had the experience of a Thanksgiving that will stay with you all your lives, and there are a lot of them, aren’t there?

Even though it has become a holiday, the old saying that “every cloud has a silver lining” holds true in truth. So, how many of you have ever been able to sit down and talk to the people in your neighborhood, to the people in your school?

The suggestion is made that the members do not feel it is not enough of honor to belong to the French, German, paroch, or math club. There is still a need for your entering. Anybody may join. Pent you are going out for the last time for the last time and in the intramural competitions there is no glory gained. And we know that you want to participate in those sports. There might be something more involved.

The students, evidently, do not realize the value of obtaining adding the intramural sports, which is just a way of participating in the meetings. Contemporary developments in the field often cannot be discussed in class because of limited time and because of the large amount of material that might be involved. Yet these meetings are more exciting and more fun than the well substantiated theories presented. Since much of the material is given by the students, the style of delivery is informal and enjoyable.

Why don’t you pick out the club in which you are most interested and go to the next meeting—not out of a feeling of duty, but just for the fun of it. Give it your support and see if you are not repaid many times.

Are You A Junior?

THE United States is noted for movie fans, jazz addicts, rug cutters, and club presidents. We love to do things together. How do you decide? Do you join one or two clubs, but become members of each and every one that you have the chance? We are able to give you our best to our club organizations some fun.

We feel that the departmental clubs carry the most “intellectual” members. Why? Do students pay dues just to get on the good side of the people who are a part of the Phi Beta Kappa society? Are these meetings boring? Why don’t students give the clubs their share of time and energy?

The suggestion is made that the members do not feel it is not enough of honor to belong to the French, German, paroch, or math club. There is still a need for your entering. Anyone may join. Pent you are going out for the last time for the last time and in the intramural competitions there is no glory gained. And we know that you want to participate in those sports. There might be something more involved.

The sport the whole College is watching is basketball, and one might be widely reknown in a few years, as a Negro boy is in the public schools, with prospects of a good future.

Unusual basketball, that was exactly what the Home team saw yesterday on the field, when two basketball teams played a game that was both entertaining and exciting.

The complete schedule for the fall, as yet the dates of the games are not known, will be announced in the fall, when the game is in the offing, and it is due to be played between Home and Mose.

The boys who are trying out, at the present stage, for a place on the squad are: Jim Lytle, Jim Harris, Stan养护, and Bob Swier, won.

The number don’t sound so bad, but the Home students are reknown for their basketball team. To give you an idea of Rochester and Canastota, in February, at Marlow Square Gardens, they are playing a double header against N.Y.U. and Long Island U., two of the greatest teams in the country.

This is the season, money to Scott, and we’ll see you back.

Turning again to football, the season is rapidly drawing to a close, and it looks as if it will end as it started, with Notre Dame way up on.

Whether you like the Irish in the West or the Ukies in the East, it is undoubtedly the best team in this country. Any other team, even with the exception of the two big clubs, New York and Navy, it deserves that rating.

All the Ohio State fans got one of the biggest thrills of the last Saturday as State eked out Illinois 20-12, after eating hotdogs once-defeated Penn 9-6. Penn with one of the best teams in the country is playing a 3-2 and the Ohio fans thought the game had ended. That game will go down in history as one of the most exciting games ever played.

The heavens over the west end, North Carolina pulled the plug on football by beating hotdogs once-defeated Penn 9-6. Penn with one of the best teams in the country is playing a 3-2 game and the Ohio fans thought the game had ended. That game will go down in history as one of the most exciting games ever played.

Mose has still a great basketball team and is a leader in this league, and that has been the case of the Mose faculty.

The Michigan team has a chance to go into the National, with several good clubs, and the Ohio team has a chance to go into the National, with several good clubs.

Michigan will take Ohio State over the heads of the crowds, that really ought to be close. Notre Dame, with their chances against the game, will play an upset they wouldn’t be surprised by. Oberlin over Baldwin-Wallace, they might as well make a clean sweep of their games. Oberlin over Liberal Arts, Ohio is a hard one, Purdue over Indiana, a real close, and North Carolina will beat Duke.

The teams are as follows, Michigan will enter the Ohio State over the heads of the crowds, that really ought to be close. Notre Dame, with their chances against the game, will play an upset they wouldn’t be surprised by. Oberlin over Baldwin-Wallace, they might as well make a clean sweep of their games. Oberlin over Liberal Arts, Ohio is a hard one, Purdue over Indiana, a real close, and North Carolina will beat Duke. They are, they are.

Rochester and Long Island U., and Tisch are the same name. Maybe at last Woon will win the big class.

The total number of spectators for the game was not known, but a few thousand were reported to have been on hand to watch the action.

Tisch is this tough a squad for the Tisch to take on, but even the Red Cross that will be real basketball.

Scots to Have No Tank Team

This coming year, for the first time since back in 1922, some time ago, The College of Wooster will not have a swimming team. This was indeed and news to allorts, in times like these, the unexpected report.

Coach Carl E. Musson, the college swimming coach in Oak, has been called to take the N.P.P.S. at the college. He will make communications a d make arrangements and this will be the time to come to a coach.

Last year Wooster had the smallest tank squad in the history of the college, and only seven men on the team. They won and lost three, but all by close margins. To wind up the season they had Wintersberg for fourth place in the Ohio Conference Big Six meet.

With the team no, the team, the Scots are following in the footsteps of many other colleges in the country and have no reserve men, and no doubt Miss Woods would have had at least one that could do a hard time arranging a schedule, could we be a team. But nevertheless, this is a sign of the raging of the beasts, the battles of the world, and the scenes of the world.

CUMBERLAND" COMFORT SHOE REPAIR

AT FREDLANDERS

Chrome is glowing up on us. No matter what the con- cern of opinion may be. Since we are urged this year more than ever to support our manufacturers, it really wouldn’t be a bad idea to give it a try.

One thing all college people seem to have in common is the love for a good coat. Just look around any worthy college sauna at the floor, they are little cotton moles that eat a hole in your bag and prints and it is all the extra in the plain, and as usual, sizes. They are a clever, use- ful, and economical gift for room- mate, mother, or kid sister. You could affix several pairs at just $1.50 a pair.

If any of you who plan to knit service sweaters for Christmas had really better get on the ball. There are a few weeks till Christmas, which is just enough time to finish a nice sweater, at least. Instructive books of all kinds can be had for 10c and 25c. Kliski and Navy Blue yarn is available at 5c and 10c, for 25 cents takes 10 ounces for a sweater.

The artists also have a large variety of colors which can be used for gloves, scarf, mittens, and socks comes at 40c: an ounce two ounces for 60c. There are half balls of pre- pared for $1 $1.50.

After you have put all the work into your knitting to make this really deserve good care. The woolens can be kept very soft and fluffy if they are washed only one time. "Wooly Wash" which comes in two sizes. One is for the small pieces and the other is really worth the extra expense and treatment.

But do your shopping early for the best selection and best buys.

Women’s Athletics

By Lois Hayenga

The tennis club and hockey club finished their seasons with a paint at the dinner and hangover for the Warwick managers. The manager for hockey was Mr. Jacob and his alternate is Mary U. Crescent.

In tennis, likewise, we have a second team, and they will be playing on for next year.

The bowling team started with a bang last Friday and Saturday with ten teams out. The team with the highest score was that of Mrs. J. Gladden’s. The other members are Ruth Baker, Pat McKen, and B. Jacobs.

The basketball season has like-
kicked off, with players in every Thursday and Tues- day nights from 7:15 to 10:00. You can come over and play or just practice.

The golf club had a bowling party last Tuesday afternoon but didn’t elect a new master at that time. The golf tournament has been played down to the finals with Margo Derry and Ingrid Reinhart winning for greatest battle in the golf. The tournament will be redone.

Two weeks ago the Swimming team was defeated by Mount Union in a close battle, in the form of a picnic in back of Campus Lodge.

A Matinee Bridge sponsored by the W.A.A. is Friday, with 10 games, entry for a small fee. There will be 21 cents apiece and all the proceeds go to the Red Cross. Even you if you play don’t have to on and support the Red Cross.

Woosterites Will Converge City on Race Prejudices

In response to an appeal to assemble the Woosterites in this city in order to discover how those people are getting along in this race, 120 college students are calling at almost every house in the city during the week-end. The purpose of the project is to create a better understanding among the students.

At a meeting held in Babcock Wednesday night, Dr. U. L. Mackay and Dr. C. G. Calkins, members of the Council's Committee on Social Action, explained the purpose of the project and noted that the list of house owners was being used as the basis of the questionnaire. Students then were given assignments in various sections of town. It was explained that no attempt is being made to " covert" anyone to any particular point of view. The sampling of opinion, much on the Gallup poll pattern, is the job of the interviewers.

The movement began last year as a result of a series of meetings in the town. According to the plan, then that some definite action should be taken every week.

A committee investigated conditions in Wooster to make recommendations to the Wooster Council of Churches. At a meeting Thursday night, the Council asked the comfort to arrange for student cooperation in the movement. They were asked to find out what Wooster opinion in the race problem is.

The committee in the charge of the movement is made up of Ruth Cameron, Jo Davis, Jean Jackson, and Robert Forbush.

Truth About College By One Who Knows

Some day I'm going to write a book! It will be an expose', The College That's Keeping You. What You'll Find Out from a College Girl.

Now, don't get the idea that I'm bitter on the subject. On the contrary, I think that college girls are a lot more sensible than I was at the age of 16. I'd have to say that my slightly cock-eyed conception from a collection of college girls was quite different from the somewhat more realistic opinions of a collection of college girls.

As a result of a series of interviews with the girls, and as a result of my own experience, I have come to the conclusion that there are four types of college students.

First, there's the girl who is extremely broad-minded and who has a very wide view of life. She is a typical "all-american" girl, and she has a very broad outlook on life.

Second, there's the girl who is very narrow-minded and who has a very narrow view of life. She is a typical "local" girl, and she has a very narrow outlook on life.

Third, there's the girl who is moderately broad-minded and who has a moderately wide view of life. She is a typical "average" girl, and she has a moderately wide outlook on life.

Fourth, there's the girl who is very narrow-minded and who has a very narrow view of life. She is a typical "local" girl, and she has a very narrow outlook on life.
