Henry Cabot Lodge Tops Student Poll
Governor Rockefeller Finishes Second

Henry Cabot Lodge, United States ambassador to Vietnam, was the choice of Wooster students in a sample of 1,300 opinion polls returned last Friday. Lodge received 809 votes, Rockefeller finished second in the sample, while Perot received 346 votes.

Seniors Receive Second Fellowships

As the song says, "Time is an enemy, and time is around." Two students who could comment by experience on the truth of that statement were Robert Johnson and Charles Hattie. These Wooster seniors, both graduates of Woodrow Wilson Fellowships, have now received National Science Foundation Fellowships for a two-year period and are finalifying plans to travel abroad. One major in mathematics, a senior at the University of Michigan and was recommended to the fellowship. He received a National Science Foundation Cooperative Graduate Fellowship and will continue to study mathematics at the University of Michigan.

Charles received a National Fellowship, which can be used at any graduate school in the country. While he was on the campaign trail, he was impressed by Lodge's address ability and decided to present the delegates to the Null Convention would debate issue most persuasively. The organization awarding these fellowships, the National Science Foundation, is a governmental entity established to encourage post-doctoral fellowships and attempts to improve the status of science in the United States. To do this, it grants both post- doctoral fellowships and attempts to improve higher education and scientific research and to strengthen research potential. This year the foundation awarded approximately 4,600 fellowships.

Conservative, Liberal, and American Activists, Last July he was elected to the 83rd Congress, in which he served until last April.

Successful Campaign
MacGregor was one of four to be named "Outstanding Movers of Tomorrow" for Minnesota in 1975. In his first try for the presidency, he was elected to the 83rd Congress, and in 1975, he was also re-elected to the 84th Congress.

The Committee has also released rules for platform amendments.

The first speaker, Clark MacGregor, from the Third District in Minnesota, will speak in chapel Thursday. He was elected by his congressional colleagues as the chairman of the Senate Republican Caucus. He has been re-elected by his constituents.

A second speaker, given to the Second Congressional District, was Representative Dick Vanover, who has served the 7th District as a congressman for the past five years.

Tait Joins Hattlesburg Picket Line With "Professors' Project To Register Negroes"

Dr. Gordon Tait of the religion department is now the second person from Wooster to spend time in Hattlesburg, the principal of Forrest County, is not a member of the National Association to end mass jailings of Negroes in that the district had registered any voters getting out in full force from the house. Local Conditions

It is said there is place a county registrar imposes a certain form of all voter registration forms. In fact, as a result of the registration drive, the county has been urged by the United States Department of Justice to end mass jailings of Negroes in that the district had registered any voters getting out in full force from the house.

What's In A Name?

The Voice firmly believes in the value of student polls as a means of determining important subjects. During the current school year we have run two such polls concerning Republican Presidential candidates. Although the results must be interpreted, we wonder exactly what the Worster students give to better than one half of their votes (less than 16) on the list of Cabinet cards. One man, who, despite many admirable features, has not lifted a finger in his own behalf and has refused to come home from his victory tour, is the President himself.

If Worster students were simply reacting to the disporportionate amount of publicity given Lyndon B. Johnson by the press, they would, perhaps, make a grave error that should be rectified by the Mock Convention balloting. To vote for an individual simply because he has a well-known name is not justifiable.

During the next week, students are going to be faced with choices and stated policies by the four major candidates. We should all look objectively at each person.

As far as the support from the campus of Henry Cabot Lodge cannot formulate their man's stand on vital issues, they should not win. If they can do this and realize the majority of the votes we would readily join those who congratulate the victor.

To vote for a name is not enough, however. We must not forget the likes of New Hampshire, quarantine those (such as Rockefeller and Goldwater) who have the initiative to state what they believe in, and instead vote for a man if his only strong point is that no one has anything against him. College students should want more than this.

Deliberate Malice

Thievry and vandalism on this campus have passed the point of prankishness. In fact, every woman's fears have been realized.

The cost of money has been terrifically increased as a student is not financially independent. As a result, students are extremely uncomfortable over the financial aspect of school at large.

In one recent instance, a student was lettered than his composition needed. He had been shown that he had been lettered with the right hand, but his composition had been lettered with the left hand. The reason he was lettered with the left hand was because he had lettered with the right hand.

The first of these alternatives, I suppose, would be the "right" hand, the other, the "left." The choice would have to be made quickly.

The rest of this essay will be devoted to the "right" hand.

The last of these alternatives, I suppose, would be the "right" hand, the other, the "left." The choice would have to be made quickly.

New York CORE Ranks Split With Threatened World's Fair Entrance Clog, Water Waste

A conflict between continuing factions within the Congress of Racial Equality has divided the New York CORE civil rights effort less than one week before the opening of the World's Fair next Wednesday. The split of CORE ranks threatened to trigger new defections of local chapters throughout the nation.

Basic intrigue of the battle is CORE's Bronx chapter, which wants to take advantage of the Fair opening to stage a massive "stall-in" on Long Island parkway leading to the site of the global exposition at Flushing Meadow, Queens. Under the Brooklyn CORE members' plan, hundreds of CORE members would clog the highways "running out of gas at strategic points in the city".

There is a howl, however, which could cloud such a "stall-in". At the prompting of controversial Trinidad member of the CORE, the city might simply route the traffic around or completely wall itself off from all interpersonal activity by body and soul, the second and the mole.

Majority Suspends

The majority of New York CORE's organization refused to support the Bronx CORE's plan and, responding to CORE's demands, suspended the chapter for three days. Last Monday at a meeting, the CORE Executive Board, 1, the Brooklyn, Manhattan and Coed CORE chapters in New York, in turn suspended themselves at the request of the Bronx chapter.

According to a leader of the Brooklyn CORE, the unit said that having a "stall-in" on the fair route and this (and that) yet another CORE chapter had asked at the end of the usually-quiet winter, have come about somewhere, 

"We will not suspend," said a leader of the Bronx CORE chapter, "but said that the plan was too extreme even to the extent of water waste at the arena.

"There is a howl, however, which could cloud such a "stall-in". At the prompting of controversial Trinidad member of the CORE, the city might simply route the traffic around or completely wall itself off from all interpersonal activity by body and soul, the second and the mole.

Students Interpret Senate Rights Bill by Betty Byers

One of the rarest skeletons in Wooster’s collection, recently brought to light by *Fact* magazine, is the original preserved model of the brain of the Negro President,” an article in the January issue of Fact by Warren Boroson, William E. Morison, and John A. diplo- man, who presented the cranial cavity of a Negro to the American Museum of Natural History in the early 1860s. The cranial cavity was examined by the author of the article, who was a student at the University of Pennsylvania. He was a student at the University of Pennsylvania who had worked on the history of the cranial cavity of a Negro in the 1860s. The article is about the history of the cranial cavity of a Negro in the 1860s.

**Student Lowry Defends College Professor From Tarring and Feathering By Citizens**

Amidst the anti-Negro riots that have swept the country in recent months, there is a growing demand for the protection of Negro institutions. In Wooster, Ohio, the town where the article is set, there is a strong demand for the protection of Negro institutions. The article is about the history of the cranial cavity of a Negro in the 1860s.

**Early Arrival Cottons**

As the new crop of cotton is being harvested, there is a demand for the protection of Negro institutions. In the town where the article is set, there is a strong demand for the protection of Negro institutions. The article is about the history of the cranial cavity of a Negro in the 1860s.

**SCOTS AID AT APPLE CREEK**

Any day of the week one may find some Wooster students at Apple Creek, participating in a number of different activities. These activities are part of the Apple Creek Service Project, which began in 1967.

**Smith Ureathes City**

By Alexander H. Smith

When they opened the doors they found the situation was inside. Writing down the skeleton’s name was a weekly procedure for the chief curator. Dr. Robert H. Smith called it an important task of the treasurer of the International 15, as he had to be at the meetings to discuss the rumors that had been spread.

**Beds Destroyed**

In 1921, after moving to Columbus, the Ohio Historical Society held its annual meeting. President Was- den, in his report, mentioned that the library had been destroyed.

**Mab Action**

In spite of, perhaps, because of the stories the Chancellor had spread, an indignant popular element called Harding a second citizen. A mob of Wooster citizens were about to seize the Chancellor and tar and feather him. When there seemed to be no other defense available for its contention, four students of the University were sent by the town to the Chancellor in the interests of the University. The four students then took over the Chancellor’s house, and the town determined to tar and feather him with and without the University’s knowledge.

**Racism Threatened**

The four students who spent the night at the Chancellor’s house were there, not because they sided with the Chancellor’s views, but because they thought it was a threatened underdog who, at that time, needed defending. One of the students was Howard Lowry, now an assistant professor of history.

WOUSSER VOICE

Friday, April 17, 1964

Thɪndɪcl's Knʊt Denɪson, Davєr Musкɪes

Davenll Cheng

Despite the absence of conference low barely hurdles for Buck-Norris, Harris, the College of Wooster track team began its outdoor season successfully with a 1943-3 triumph over Muskingum Wednesday and a 48-65-6 victory over Denison Saturday.

Showing the way for the Black and Gold was midfielder and 800,000. Dick Hardin, who contributed two goals against Buck-Norris and garnered four thefts in his gestation.

On both ends赢家 Gary Brown matched victories in the mile run.

George Davis, senior, took the vault with jumps of 14' 5" and 14' 6". Tim Davis picked up firsts at Denison for the Scots in the shot put and discus.

A pleasant surprise for veteran Art Fitz is the barest of fines for junior Bill Mikkil, just qualified last year because of the NCAA transfer rule, who ended the day with times of 20.2 and 21.2 for the running segments.

Slowing the Scotch down, however, was the sprinter from Hungary, 15' 0".

Kent Stater Editors Voice Disapproving of New Successor

Two former editors and the present editor of the Kent State University newspaper, the Stater, recently decided that Bob Zale was not the person they had picked for the new post at the Kent College of Education.

Army Jets

Reggie, originally from Bridgeport, Conn., is the first West Point一堆 dedicated to the college to make an Olympic appearance. In the try-outs Reggie was a number of lights and was composed of players named to the All-American Football team after the competition in the Armed Forces World tour.

Winning the Air Force Tour in all-star team was an army defense. The losing team was a number of lights in the major ship in the game's history. An all-star team was then selected to participate in the Olympic trials in the Stater.

The new editor says the organization is "too young on the campus" and "the former system could be improved.

Protesting the 4 to 1 vote of the faculty and student committees to appoint Miss Mikkil, two former editors and the Stater staff sent a three-page letter to department head, student organizations and university officials.

The editor of the Stater, which charges management every three quarters, stated "I do not feel the editorship itself and judicary should be chosen on the basis of his policies and sound journalism rather than dedication to service as shown by service to the team, the new editor says the organization is "too young on the campus" and "the former system could be improved.

The new editor says the organization is "too young on the campus" and "the former system could be improved.

The new editor says the organization is "too young on the campus" and "the former system could be improved.

Cheerleaders, too, have commented on the policy in the same form as the editor.

"We cannot imagine a situation where we failed in the past when they rid them of the"sore head.

They are the "sore head" of the team, according to the new editor. "We cannot imagine a situation where we failed in the past when they rid them of the"sore head.

Most Wooster students would probably fail an exam on some of the most every-day terms of the faculty of this College, as a sociology course pointed out this past month.

In the interest of alleviating much of the misunderstanding and trouble, Dr. Dean has directed that the following list of terms be made known to all students.

**ASSOCIATE PROFESSOR**

The faculty member whose name appears on the staff list, but whose title is not that of a professor, is an associate professor. This title indicates that the individual is teaching, but not necessarily researching or writing. Associate professors have a Ph.D. or equivalent degree and are qualified to teach in the College.

**ASSISTANT PROFESSOR**

The faculty member whose name appears on the staff list, but whose title is not that of a professor, is an assistant professor. This title indicates that the individual is teaching, but not necessarily researching or writing. Assistant professors have a Ph.D. or equivalent degree and are qualified to teach in the College.

**FULL PROFESSOR**

The faculty member whose name appears on the staff list, but whose title is that of a professor, is a full professor. This title indicates that the individual is teaching, researching, and writing.

**BRANDON**

The title of the president of Wooster College is Brandon. The position is hereditary and is held by the college's president.

**FACULTY**

The term faculty refers to all members of the teaching staff of a college or university. It includes full professors, associate professors, assistant professors, and instructors.

**INSTRUCTORS**

The term instructors refers to all faculty members who are not professors. They include assistant professors, associate professors, and full professors.

**OCTAVE**

The term octave refers to a range of notes that are an octave apart. It is used in music to describe the relationship between notes.

**PIANIST**

The term pianist refers to a musician who plays the piano. It is used to describe someone who is skilled at playing the instrument.

**POLICEMAN**

The term policeman refers to a law enforcement officer who is responsible for maintaining public order and enforcing the law.

**PROFESSOR**

The term professor refers to a faculty member who is a full professor. They are typically responsible for teaching, conducting research, and providing academic leadership.

**SOLUBILITY**

The term solubility refers to the ability of a substance to dissolve in a solvent. It is used to describe the extent to which a substance will dissolve in a given solvent.

**TEACHER**

The term teacher refers to a faculty member who is an instructor. They are typically responsible for teaching courses and providing academic guidance to students.

**UNIVERSITY**

The term university refers to a large, comprehensive institution of higher education that offers a variety of programs and degrees.

**WARNING**

The term warning refers to a notice that is issued to a student as a reminder of certain rules or regulations. It is used to ensure that students are aware of their responsibilities and obligations.

**WOMAN**
