### Organization Orgies

This is station "CLUBS" calling . . . Come in station "CLUBS" .

Do you feel dismal, discouraged, and downtrodden? Are you missing the spring of Springtime? If you are suffering the untold agonies of "Gee, I wish this rain would stop 'cause I wanta enjoy myself," then take my advice. Listen to the "Voice" of experience. In extending a few words of worldly wisdom, one must say that anyone can obtain a cure in almost any shape or form. (Don't get me wrong.) First, you can join the session of the Congressional Club, under the leadership of Gordon Marwick and Sam Bell, Monday night at seven. Then, too, Clericus meets next Sunday at two-thirty. Dr. Henry Sloane Coffin, the minister in the Sunday morning service will be the speaker. And what about the Spanish Club? It met last Wednesday evening in Galpin and everyone enjoyed a social hour, including Spanish plays and songs. Now just take a look at those energetic people that took advantage of that meeting last Wednesday. They know how to get the new 'CLUBS' feeling; they knew how to banish the blue-book blues. So come on, kids, get on the beam, meet with your club, and you'll be on top of the world. Okay??

# **Gum Shoe Hop** Opens Fri.; Finds Cast On A Limb

"Four on a Limb", the 1945 Gum Shoe Hop, will be presented Mar. 23 and 24 at eight o'clock in Scott Auditorium. An annual student written, produced, and directed musical comedy, this year's Hop was written by Jeanne Washabaugh. Doris Day and Annelu Hutson composed the six songs and will do all the accompanying.

Frantic efforts of Barbara Massey as Katy, Julie Carson as Audrey, Deane Ferm as Josh, and Jordan Miller as Irwin to get the Student Senate's permission to pro-duce a wartime hop furnish the nucleus for the plot. Such famous names in history as Moliere (Bob Curry), Helen of Troy (Barbara Eicher), Beethoven (Bob Gish), and Carrie Nation (Ann Haggerty), are interspersed in trial scenes. Each of these characters does his or her bit in bringing about the judges' verdict of "not guilty", much to the disgruntlement of George Washington, as played by Dale Blocher.

A novel feature of this year's production is the combination of three dance choruses-tap, ballet, and boogie into one sequence. Mu-sic for this dance was arranged by Four On a Limb's composers, who will play it on two pianos. Choreographer is director Mary Eleanor Weisgerber.

Comedy comes to the fore in the parts of Stan Morse, Vivian Dougass, Henry Trapp and Lorell Ann Dennis, while music holds sway in company of a singing chorus.

Assisting the director is Charlotte Forsberg, as assistant director, Lillian Kesel as business manager, Jean Greer in charge of costumes, Dorothy Vaugh as head of the properties crew, Betty Marker as head of the stage crew, Barbara Schuer in charge of make up, Mary Baker as head usher, and Cary March as publicity manager.

#### It Grows All Around - We Hope

Every year this happens. You're tired of hearing it. We're tired of writing it. But what can we do? Every year spring comes - and when spring comes it rains - and when it rains the ground gets soft and mushy. And people invariably walk on it - and when people walk on it, instead of on the nice brick walks, the grass just basket-winner. The feeble question for the nearest bottle of vitamin doesn't come up. When that happens the Voice must inevitably write an editorial saying, in essence, dear students, please keep off the grass.

So every year this happens. You're tired of hearing — but this is where we came in. Before we get off the merry-go-round, please listen to a sincere plea from the Senate, the Administration and all who are interested in the general appearance of the Wooster campus. Those few extra steps around by the walk instead of under the wire won't make you any later to class and it's infinitely easier on the back. So if you can just refrain from oozing over those tender shoots for a month or so, not only will you save wear and tear on your loafers, but you can soon loll on a soft thick quad where "the green grass grows all around, all around"-thanks to you.

#### The State of the Nation

By Jack Purdy

OHIO'S BOB TAFT seems to be afflicted with that spring plague, more common to the golf course than the Senate, the hoof and mouth disease. You know - every time you open your mouth somebody puts his foot in it. Latest fancy footwork comes through the courtesy of various religious groups, and, mirable dictu, a fellow Republican.

You may remember last month how Taft was soundly booed by the liberal press (PM and Yours Truly) for going back on his last summer's election pledge to support a permanent Fair Employment Practices Commission. Mr. Taft had even been so generous as to vote for such a bill in committee last September. But in January he voted against the bill—hence the barrage of bronx cheers.

Taft's latest mis-adventure came neat little trick, and while we would hesitate to compare Mr. Taft's construction to that of a Ford, something similarly disasregain his place of popularity in the public eye, he introduced a bill of his own, calling for a permanent FEPC. But he cannily deprived his proposed commission of any effectiveness by removing its power to enforce any of its recommendations. The bill has been aptly named "The Milk-toast Bill", or less gently, "Taft's Folly".

Turning now to the scene as a whole, according to a late Associated Press survey, we find that there are more men in respective training camps today than there were last year at this time, regardless of the hold over them by the War Mobilization Board. When practice opened a week ago, players were as few and far between as cigarettes; but with the continuance of warm weather and as days passed, more arrivals began checking in. This in itself is a good sign. Maybe the baseball won't be the higher quality, but it will certainly be full of the old pepper and fight that gives it so much color.

### Sections Battling For Top Place In Intramural Race

The Intramural basketball League is rapidly thinning out, the race for the championship turning into three-way fight for the crown between Seventh, Fourth and Fifth.

Fourth is continuing on the path with a victory over Second Section last week to keep them up in to pop. the running. In other games played Eighth 27-21 in a rough and tumble affair, for their first win of the

mark. Seventh came back, and gradual began to catch up, but it was no easy struggle. Their team was erratic, not playing consistent ball, but they were able to pull through. It was Alvin Arthur who saved the day for the Kappas, fighting every inch of the way, and making point after point to pull up. It was a tough one to lose for the Third Section squad, after putting up such a battle. This left Seventh with a record of four straight victories, as against no defeats.

The field is thinning out now the deciding game to be played between the two top teams in the league race at the end of the season. In case of a two or three way tie. there will be a tournament play-off, the winner being decided in that fashion.

Last Tuesday night a strong Fifth Section team was handed an upset front and it looked as though they would walk away with an easy victory. But Fifth rallied in the second half, using their fast break

# Track and Baseball Practice Begin To Start Spring Sports Parade

By Ben McDonald

Once again, after the lapse of a year, spring sports are again coming to the campus of Wooster. The crack of bat against ball, the crunch of track shoes on cinders, again remind us that things are beginning

Last year the college on the hill last week, Third Section be at offered no program of spring sports at all, and it was sadly lacking around the campus. But this year the Scots are going whole hog, putting out teams in baseball, track, tennis and possibly golf.

Again, as usual, the coaching staff is faced with the problem of manpower, with so few civilians Last Saturday saw one of the on the campus, and they are remost exciting games ever seen on lying mainly on the trainees for the home floor, including the support. It is both surprising and regular season. Seventh Section gratifying to see the welcome that who have high hopes for themwas forced all the way, to come baseball and track are receiving. There are a number of civilian boys out for berths on the track

> Ten civilians and eighteen Trainees reported to Head Coach Carl B. Munson last Monday to begin their rigorous training for track. The twenty-eight men are nearly all inexperienced; so there too, it is the same old headache. All the boys are willing and eager to learn, but no doubt some of them will be dropped as the season progresses.

Harry Scheifele and Don Shaw are the only two civilians on the squad who have had any previous experience whatsoever. Shaw was a 440 man on the 1943 squad, while Harry was a star hurdler in high doubt be able to develop these any moment. boys further with his technique of coaching, and there may be some April 21 Ohio Wesleyan, there surprises in store.

Trainees - Abbe, by the Freshmen. In the first half Hobensack, Bartholomew, Hoppe, the freshmen pulled way out in Leif, Lawrence, Benedict, Sunday, Lelenka, Kirkwood, Dart, Fitzger ald, David, Drake, Burden, Cameron, Dalton, Williams, Goldy.

Baseball coach Johnny Swigart to pull up. However, they weren't called for practice last Monday able to go out in front. Score 24- also. As with track, it is too early Wallace to make out anything but there Watch these freshmen, they seem seem to be some boys out who can handle a ball. They spent the af-ternoon getting the feel of things, May 7—Otterbein, there playing catch and shagging flys May 11-Oberlin, there under the warm sun.

Soon they will be getting down to the brass tacks of learning the fundamentals, and sharpening their batting eye, but now they are going through calisthenics and other builder-uppers to get into

Also in this sport, inexperience is the greatest handicap. Nearly all of them know what to do with a ball—that is almost natural—but few if any have played in varsity competition.

Tennis, that's a new word around here, especially in connection with a tennis team. Practice has not been called yet, as the courts are still much too wet to allow play; but as soon as weather permits, tennis coach Mose Hole will issue a call for all enthusiasts

Golf is the question mark. It was thought at first that the Scots would present a golf team; but as things stand now, it is indefinite, and up to Coach Boles as to whether there will be one. Right now it is in the wind, but no schedule has been arranged.

Following is a complete schedule of all spring sports, but it is subject to change. Coach Boles is attending an Ohio Conference meeting in Toledo this Saturday, in which he is going to propose that, since graduation has been moved up a week, that all sport events be moved up one week.

Whether this plan will meet with approval is a question, but regardless of anything, this schedule is inschool. Coach Munson will no complete and may be changed at

### Song Hits of '45 - Wooster Version

WHAT'S WRONG WITH LOVE?

Tis love that makes the world go round;
Why must you always play the clown?
Don't be so shy; give love a try.

The moon's made lots of history, Yet love remains a mystery, You won't agree; just look at me.

The world has changed so much,
Since way back when;
Your scientific tools and such,
You study bunsen burners and your microscope,
To measure the bliss of a kiss.

I've seen a kingdom fall and rise Just by a pair of dreamy eyes, By stars above, What's wrong with love?

Now that I've told you of its charms, Why can't you heed this call to arms, What's wrong, what's wrong with love?

THIS IS MY SONG FOR YOU

This is my song for you,
You have it from my heart;
The words that I made it of
Will linger on when we are far apart.

It's yours with this heart of mine,
I made it all for you;
It's tied up with memories,
And time will always see them shining through.

I tried to express myself
To tell you how I feel;
But we are from different worlds,
Yours in fun and mine is all too real.

Here's to the memories,
A gift I'll not forget;
As time goes its crazy way
I'll hear your sweet voice singing to me yet.

LOOKING AT YOU
Looking at you
I'd know by your face,
Troy must have been a wonderful place.

In all my travels
About this land,
How I missed you I can't understand.

I spent my life through Just searching in vain For someone like you Who's right as the rain.

Funny my life time Was lost in the strife, And I discover you In my next ife.

You're something from a blue sky, The welcome breath of spring. Your charms are so alluring, To me you're everything.

Now that I've met you
My life's just begun
Pray let it continue
Till my setting sun;
Helen, you've made me realize
Troy must have been Paradise.

vestments. For prosperity after the war, a creditor nation must give things away; this policy was pursued after the last war by England and although they were never actually repaid, an increased flow of goods resulted which enabled other countries to purchase more from England. He advocated that the United States should lower her tariff barriers to increase and stimulate trade.

Mr. Boothby was greatly impressed during his tour of the United States with our seemingly limitless industrial expansion. In closing he advocated that the United States observe England closely during the post-war years to profit by their successes and failures in a planned economy, especially Beveridge's plan of full employment in a free society.

The speaker addressed the faculty and student body in Chapel through the cooperation of the Wayne County Community Forum.

Applications for scholarships, student aid grants, and ministerial, missionary, and faculty reductions and for employment for next year must be turned in at the Deans' office by April 1. Forms may be obtained there.

#### THE LITTLE THINGS THAT COUNT

Memories are always sweet, Little things especially; So I'll count those things I love That make you dear to me.

Your stringy hair,
The way you slouch,
And drag your great big feet
When we dance.
The hings I love include
The way you favor
Every gal with a glance.

I'm getting fonder every day Of baggy jeans and bright plaid shirts, You're such a sport, such good clean fun, Even though your feet invariably hurt.

The things I shall remember Will always include Those sweet little things So revoltingly rude; The ripe smell of soy beans, The soot on your face, Those little things that count.

You eat with your fingers, You constantly sniff; Asthmatic adored one You're cute! \* \*

FREE AS A BIRD

That's what I love in you, dear.

No sophistication and far from sleek,

You peel your polish, Get sick on your beer,

Strictly unique,

That makes you different,

Free as a bird we're soaring, Free as a bird, The sky's our meadow of blue; We're flying high.

Look, there's your future ahead, A highway straight to the sun; Right now there's work to be done, So spread your wings.

The breeze in the treetops
Is humming a tune,
The world there beneath us
Looks up at the moon,
Looks up at the moon.

We're flying free as a bird, We're heading right for the sky, And, kids, no matter what comes— We're flying free as a bird, Free as a bird!
