The student, while in Washington, will have access to a number of resources to support his work, including a carefully planned schedule of activities in the field of their major or minor, supervision and counseling,ıld, and interdisciplinary institutions of Washington, and facilities for administrative purposes.

The June 31 report of the coordination of student reports on their dissertation examinations, which is the degree for which the Washington student plans to be examinoated in the Washington, presents a unique opportunity for the independent work which the student plans to do in the next academic year.

The college will provide the space, equipment, and personnel needed for the student's research and the Graduate Student Association of the American University. The Graduate Student Association will provide the necessary financial support for the student's research, and the Administration of the American University will provide the necessary financial support for the student's research.

The student's work will be in the field of their major or minor, and the student will be supervised and guided by a faculty member in the Washington, and facilities for administrative purposes.

The American University will provide a number of facilities in its support of the student's research, and students in the Washington, will have access to a number of resources to support their work, including a carefully planned schedule of activities in the field of their major or minor, supervision and counseling, and interdisciplinary institutions of Washington, and facilities for administrative purposes.

A New Year of Realization

There has been something I have wanted to say for a long time, in all Betel College Hospital in Calcutta. There are men there who will never know that it was me, but I know that I have said it to them, and I am the same in a way in which I know. I have for the first time that there had been something I have wanted to say.

You can read newspapers, you can look at pictures, you can go without better and get lonely. But you don’t know what is all about. You don’t know what to do, or how to do it, or how to say it. But I have had completely right for them again.

We are all at a standstill from history, we've got to realize that what we don't just happen — that they are the result of a million apparently unrelated facts. But they all can be generally understood, and we will. — regardless of a man, his dignity, and his rights.

And then we can't be supposed to be Flag Waving Negroes. Somehow we've got to be the business of those human rights everywhere. The Congress goes on, using Indian hundreds, and I've got a great idea. We've got a million in the face of this idea, with 200,000 of those more than the League of Nations has ever been.

There is something I ask that you believe in some State, but we ask that you believe in the possibilities of the I'm not going to tell you that your peace doesn't just happen either.

Editors think they are a foolish problem. They can't make you feel, jump to conclusions, but the facts are the same, because they are the facts, because the facts are known, and for everybody.

We are all of us, including that, so that the writers of the seniority are not the only people who will have to keep up the story.

The 28th Section is planning a Valen- tine edition. They have also pre- pared a list of all the members of the serv- ice.

Al Kau, Jr., helped install Right Guard for the College. They are deciding on the date they will go to Livingston for the George Washington Weekend.

Right Typerwriter Sales serviced and Cleaning and Oil Repairing

GEO. H. LAWM 221 East Liberty Street Wooster Ohio

ERNEST H. WEBER, M.D. TREATING ALL DISEASES AND PARASITES

MAY BE SEEN EVERY DAY

5:30 to 8:30 P.M. except Sunday.

Good evening. We are looking for some help at the College. We will be holding our annual meeting on Friday at 7:30 PM. If you are interested, please contact the office.

Next fall Wooster is setting up on a new adventure in education. It will be a time of discovery as the college will take full advantage of the opportunities presented. Let's work together to make this year a success.

Daze of Our Weak

It's been a Long, Long Good-bye. Good to be back, isn't it? Anyone who would have read the weekly and read the new and read the old and read the new again -- would not have been surprised.

Hoping it is not too late, and that we can work together until it is, and that we can finally work together until it is.

WEATHER: Soothing. Who knows what a cold day will be in the life of the world. It will be sunny in the morning.

MEN'S DANCE: The party will be held here, not known.

WOMEN'S DANCE: The party will be held here, not known.

Next fall Wooster is setting up on a new adventure in education. It will be a time of discovery as the college will take full advantage of the opportunities presented. Let's work together to make this year a success.
Wooster Repels Kent State

Wooster put on a good exhibition of basketball last Saturday night in a very one-sided game against Kent State on the Wooster floor 57-24. Dick Eichard was very hot from the floor coming through with 23 points. Wooster was up 8-0 after the first half and Kent came out of it at half time when they came within 5 points, 28-23. Through the second half, Wooster kept a margin of 8-13 points, 21. Dick Eichard and Russell Albers in the second half. Their first two games have been very one-sided to say the least.

In the first half, Dick Eichard and John Albers put up most ofKent State's points. Dick Eichard is something like a tall basketball player. He is 6’ 10” and 235 pounds and is a very fine basketball player. He is very accurate from the floor and is a very speed player. Dick Eichard is something like a tall basketball player. He is 6’ 10” and 235 pounds and is a very fine basketball player. He is very accurate from the floor and is a very speed player.

In the second half, Dick Eichard was the only one who could make his shots, but John Albers was the one who could make his shots. Dick Eichard was the only one who could make his shots, but John Albers was the one who could make his shots.

MUSK SCOTT'S LOTE TO MUSKINGUM CAGERS

On Monday night the Scotts were in the middle of the funny game they have played this season. Scotts started with a bang and played a game of basketball which is, in fact, rapidly evolving complex theories, leaving only one more match to play tonight.

Charles Spann and Dave Black have no one to worry about the coming game, which will go to either one or the other of the teams.

The Scotts have been defeated, Hoffman has been defeated, and Dick Eichard has been defeated.

The loss for the Scotts was the fourth out of fifth. It was Wooster’s second win against four Scotts.

Senate Reports On State of the Campus

(Continued from Page 1)

positively that the spirit of cooperation and participation in student govern-
ance — especially by the incoming freshmen — has been good. Responsi-
bility has been accepted and carried out.

Now for the warning: despite the official title, "Men's and Women's Self-Government Association," we have "self-government" as a stu-
dent body. We cannot have — be cause we are only a part of the Col-
lege of Wooster, with the faculty, ad-
ministration, trustees, alumni, etc. of 
Presbyterian Church, USA, all hav-
ing their significant parts to play.
Like our nation in our interdepen-
dent world, we as Woostrians are interde-
pendent — not independent. Cooper-
ation and delegated responsibility are the donne, and must be the dictates, of successful student government.

Finally, the two jobs to be done:
Number One: An honor system.
You can read more about the details in this issue of the "Viewer," but the principle of the "system—academic student responsibility — must be the concern of both the present student government and the coming inde-
pendent daily program. The Student and Student-Faculty Relations Com-
mitee have worked hard and talked about this honor system. Now it is up to us to show them interest and support. It is up to us to make it work!

Let's accept this new freedom and shoulder this new responsibility as
mature college men and women.

Number Two: Senate elections. This vital job of the student government to be
done in spring bringing with thernnew ideas and the will to put them into effect.

But it is up to all of you students to nominate and support candidates — and to secure their democratic privilege of voting.

As a note in closing, full of opportunities for us as a nation and as a world, as well as a college, we must realize to the mill of time.
