Road To Tradition

Now that the Republican campaign of "Now is the time for Reform" has decided the Democratic party, we can at last put our watches to rest and go out to our favorite adventure. The day is the day of the Republican "Road to Reformer." It was a day of great excitement, and the people everywhere were cheering and singing the praises of the Republican candidates. The candidate for President was the great statesman, Mr. Lincoln, who won the election by a large majority. The people of the United States were all enthusiastic over his victory, and the nation was in high spirits.

The flood was unprecedented, and it caused great loss of life and property. The city of New Orleans was particularly hard hit, as the levees broke and the water flooded the streets and homes.
