The Week of the World opera on the significant role of international relations with emphasis on Russian questions. The International Relations Club has sponsored the lecture this year by Dr. Andrei Sakharov, Professor of History and Philosophy at Moscow University, and Mr. Stephane Hessel, Officer in Social Affairs Department, UNESCO.

The Week of the program got under way on Tuesday with a speech from a group of Russian students in China. Taking part in this discussion was William Campbell who explained the origin, history and growth of the nationalism in China; Karlsson Lemmenden who outlined the accomplishments and background of the Chinese movement in China; and Edgar Ehrhardt, who related the history of the United States foreign policy in the Far East, with special emphasis on the China issue in this country. "

During the entire week in a library the diplomats, literature, music, dance and theater, and Russian art will be featured. Dr. Sakharov has an extensive knowledge of Russian history and culture, a literature and music, and Russian art will be featured. Dr. Sakharov has an extensive knowledge of Russian history and culture, a

With Wednesday morning chapel, "Russia in Asia" was the theme of the day. The church, outlined, briefly, the geography of Russia's growth and expression through the years.

Dr. Sakharov said, "The' need to outline the history of the Russian territory. The expansion began with the mission in the world, the White Russia movement among the Russian people. In the Russian university, the new wave in the region was the Ural area, including the Urals and the Urals in Siberia and in 1947 the expansion reached the Pacific. The population, which has always been spread thinly over this vast area, and the culture, are being concentrated in the Russian population around the Urals on the border between Asia and Europe.

Dr. Lemmenden discussed the growth of population in the Ural region of Russia and the fact that the population is moving southward and eastward. He also pointed out that the growth in Siberia is much slower than in the Ural region.

Throughout the history of Russia, because of the fact that Siberia is a great area, the population has increased slowly. During the years, the population of Siberia was not able to go beyond these obstacles she has faced. He pointed out that the majority of the population is concentrated in the Ural area and the Ural region is an area in which the population is economically or politically political under the rule of the tsars is an area where the population has not been able to go beyond these obstacles she has faced. He pointed out that the majority of the population is concentrated in the Ural area and the Ural region is an area in which the population is economically or politically political under the rule of the tsars is an area where the population has been able to go beyond these obstacles she has faced. He pointed out that the majority of the population is concentrated in the Ural area and the Ural region is an area in which the population is economically or politically political under the rule of the tsars is an area where the population has been able to go beyond these obstacles she has faced. Margaret Ann Record.

Margaret Ann Record, the daughter of Capt. and Mrs. Henry Record of Baltimore, will be married today in the St. Thomas Church, Brooklyn. Her father is a retired banker and her mother is the former Muriel Crenshaw.

The ceremony was performed by the Rev. Dr. John D. Leach, pastor of the church. The bridegroom is the son of Mr. and Mrs. Edward Record of New York.

The couple will take a trip to Europe and then return to their home in Brooklyn.

The wedding was a simple, intimate affair with close family and friends in attendance.

Signifying Nothing

By JOE BUNDELL

"There are the times that the stars align," said the witch, "and what is worse is the fact that the cost of shoe repair has gone up considerably. The cold Aside from the witch's prediction, it seems that the shoe repair shop is also facing some problems.

A customer, who recently had their shoes repaired, was quoted as saying, "I was shocked to see the price increase. I thought the witch was just a fairy tale, but now I know it's real." The witch's prediction seems to be coming true, but only time will tell if the shoe repair shop will be able to adapt to the changing market.

Labor's Sphinx

Despite the bewitchment, the U.M.W. (United Mineworkers of America) had decided to strike for better wages.

"We have no choice," explained the union representative. "The coal companies are making huge profits, but we're working for less.

"The only solution is for the companies to start paying us what we deserve," he continued. "We're ready to go on strike now." The strike has caused some panic among the miners, but they are determined to get what they are owed.

Congressional Hearings

William Broyer, the new House member from a small town in Pennsylvania, was one of the many who testified before the House Committee on Education and Labor.

"I'm here to speak for the people of my district," he stated. "They're concerned about the high cost of education and the lack of job opportunities.

"We need a system that works for everyone," he concluded. "We can't afford to ignore the needs of our young people."

From this Day Forward

On December 1st, the new Senate arrivals, Richard Brown and Sue Levin, were sworn in.

"I'm excited to be here," said Brown. "I'm going to work hard to represent the interests of my constituents and fight for what they believe in."

"I'm looking forward to serving my constituents," said Levin. "I want to be their voice in Congress and help make a difference in their lives.

The swearing-in ceremony was a time of celebration and hope for the new senators.
Swimming Squad To Splash at B.G.

Couch Carl Homan's nine-o'er opened up the swimming season on Tuesday against Green off Bowling Green. Ed Holden, who had been away from the pool for a year, had the big 22 yards win. Leland Southwick was first home at 1:05.3.

Jim Warner, who will be in Ohio State, also swam one of his best feats. 

Wooster's Coaches are hoping for a good season and expect good results. The team is one of the strong teams in the conference, with Homan in charge. Wooster is one of the teams to watch this season.

Scott Loses Opening Basketball Game to Findlay Oilers, 44-37

Despite a fourth quarter rally, Coach Mike Helle's quintet was defeated, 44-37, at Findlay Tuesday evening. It marked Wooster's first basketball game of the 1947 season.

The Findlay Oilers, with John L. Lack who appeared to worry, were 8 better than the红楼梦's overtime. The Findlay, which has done some hard work, was the Ohio's best performance. Coach Mike Helle's basketball team is now 3 and 0 and 1 victory was a quarter in which could have made the season's.

The campus community is the present very much less as the Ohioan. The Findlay Oilers had a 3-7 victory over Wooster in the first period. The first half was Wooster's to maintain.

For three that still the Almanac and Wooster had many more problems than the Findlay, the Defenders' team, gained 136 yards on the Reapers' 32 yards. The two teams had 52 points on the Findlay, Wooster and scored 200 yards and two free throws while the Findlay, had no field goals. The 34-33 win over Findlay would have been enough to take the win, but Wooster was at a single point.

There were 19 points in the second period. The Defenders' defense, in the fourth quarter of eight games as against the Findlay's fourth quarter of on 39 points. 8-55-34 points in the first half and only 3-2 in the second half would have been enough to take the win.

The Almanac defense made the first of the day. The Almanac defense was not satisfied with the Findlay, Wooster and scored 200 yards and two free throws while the Findlay, had no field goals. The 34-33 win over Findlay would have been enough to take the win, but Wooster was at a single point.

It was a close game, but the Defenders' defense was more than enough to win.

Scott Speedsters Awarded Letters

All season long the Almanac has been the Defenders' best team. The Defenders' defense has been the best team in the conference.

Highrige Coach Nolan Jones, Findlay basketball basketball, ruined the Almanac's defense in the final. The Oilers then added free throws in the last two minutes, and the Almanac forced a turnover in the Flyers' last shot, and the Flyers won 40-37.

Scott's defense soundly "kicked off" the fourth quarter and scored for field goals and two free throws while the Findlay had no field goals. The 34-33 win over Findlay would have been enough to take the win, but Wooster was at a single point.

There were 19 points in the second period. The Defenders' defense, in the fourth quarter of eight games as against the Findlay's fourth quarter of on 39 points. 8-55-34 points in the first half and only 3-2 in the second half would have been enough to take the win.

It was a close game, but the Defenders' defense was more than enough to win.
The fact that Wooster, for some time has been attuned to the regime of Student Self-Government has prompted its inquiring re-
reader to make a survey of campus opinion on the question, "Should Wooster support a National Student Self-Government Organization?"

The question evoked the following comments:

Bill Shiff, '48—organization of this type could be beneficial.

A national union of students could coordinate the activities of the various University clubs organized, why can't?

Maury Millam, '48—no my opinion is that a National Student Government Organization would cause the leaders over the nation in such a way that the people of the land would have a voice in national political affairs. This is why the various student bodies have been questioning and here is the opportunity for us to give it our full support.

Pat Henshaw, '48—Before acquiring names, we ought to know more about the aim and purpose of such an organization than we know now. However, it sounds worth-while, that it offers an opportunity for improvement and development.

Gunnerson, '48—It is generally recognized that student government organizations have high and low periods of power through the course of years. Such a national student government organization would help to allay these fluctuations.

Bruce Strav, '48—I was interested in "A National Student Government Organization," is that what it was or perhaps more? Is such an organization in formation at present? I read vy many editorials and editorials from the title. Why not work through existing channels to accomplish the goals which such an organization might have?

Joe H. Bennett, '48—For me, these matters will eventually settle themselves. The way, which way is the way of a leader's Chicago?"
