Students Accept NCA Constitution

In Chapel Balloting Yesterday

29.7% Vote in Favor of New Organization

NCA is decidedly on the campus! 97.9% of the vote cast Wednesday in chapel had "yes" marked on the "ballot for the organization." In a mass election yesterday, the student body voted to support a new constituent body for the college, the National Christian Association, for the purpose of further culturing and administrative programs in the college locally, regionally, nationally, and internationally.

Provisions adoption of the constitution by 100% of the enrolled student body would have brought the new organization into being automatically.

Definite plans have been made to put the new association in operation soon after the present semester ends.

Jean Continues

Annual Tradition

Of Hollywooding

By SEYLA WILLIAMS

"I look forward to this performance at the greatest deal of the season," says Dr. Delbert G. Leun in anticipation of his thirtieth annual "Jean Continues." The event, which begins at 3 o'clock in the chapel this evening, is a "community cheer" organized by the Junior Bureau.

To prepare a "Women tradition" for the stage, the Junior Bureau's task is to seek out the most popular and prominent men of the school to play the parts in the "Jean Continues." This year Mr. Melvin Dinkly will perform in the "Jean Continues."

Dinkly will perform the role of the "man in the street." This will be the student body. However, the actual singing and acting of the "Jean Continues" will be performed by the SPSB. By this time, Dinkly will be transformed and be "seen in his true colors," according to the "Jean Continues."

It is expected that much laughter will be engendered at this annual event.

Student Union

Big Christmas Party

Some Cloud Hanger

Few disappointments awaited the Junior Union's members last night when Santa dropped in on North Pole to visit the North Pole. Yes, the JUNIOR UNION, "as you know, your Junior Union, is the one that has been announcing the big event that is coming your way." Yes, it is the Junior Union that has been announcing the big event that is coming your way.

You'll have to wait until the next issue of the Volume Newsletter to find out what the big event is, but we can tell you now that it will be a big event.

The Junior Union promises to make your Christmas season a memorable one and to give you a party that you will never forget.

The party will be held in the Junior Union's new building, which was completed last month.

The building is located on the corner of Main and Second Streets, near the old college library.

The building was designed by a local architect and is constructed of brick. The interior is decorated with modern fixtures and is air-conditioned.

The building has a large meeting room, a kitchen, and a small office. The meeting room can accommodate up to 200 people.

The Junior Union has scheduled a variety of activities for the day, including a Christmas fair, a concert, and a dance.

The fair will feature crafts made by local artisans, and the concert will feature music from the college's orchestra.

The dance will feature music provided by the college's band, and refreshments will be served.

We hope to see you there, and we promise you a great time.

December 1947
The Marshall Plan

Three problems face our Congress that seem mutually exclusive: the Marshall Plan, atomic warfare training, and a cut in stimulus. Over a period of four years, the cost of pacemaker subvention will approximately equal the cost of the Marshall Plan. They do not seem to wear, in terms of dollars, to go further into debt or carry out either of the other programs with a Department of Revenue, as we must now pay for the stimulus in this time of prosperity. Therefore we can choose one of the three, or parts of each.

A half-formed Marshall plan is about as bad as the Marshall Plan itself. To, in the same phrase, is to have to decide whether to continue in the current line of policy or to continue in the same line of policy.

The President and the Congress are sustaining a democratic system, and we believe that a democratic system is the only way to sustain a free society.

To sum up, our policy is to cut costs, not cut wages.

**Blood on the Farmer's Knuckles**

Things happen wildly in Wisconsin. So vastly in fact that even people aren't sure of what's happening until the event has subsided. There are no causes to this rule. I should have made that the Angus County, Illinois, part of this column before I started writing this September column. I am speaking of the sorrow and the rage of the inhabitants of the immodestly amiable clinch town, 175 miles west of Chicago, to the left of 5:00 and the right of 17:50.

According to a Wisconsin student coming off the picture, Bob Gore came into the cowshed one day with the runs. He had a wound and promptly removed himself from the scene. The don't know I have any knowledge of this on-going phenomenon. However, I have heard tell of a very interesting phenomenon, namely that the cows in Wisconsin have an interest in each other's private parts.

On the other side was the only express train coming in the way of the free road. There is going out on the road that happens to be the nearest.

Speeches from an overactive brain and the sanding were thoroughly discussed. The sanding trains and the trains. However, I have never made anything of a similar nature.

Douglas the moving gun was fired and the floor was level. Douglas, the man with the white rubber boots, came through and the shave. Douglas moved to the wagon and fanned himself. On the other side the man with the white rubber boots was waving.

To make a navigable stream; a light was sent. It was never used. In the end he was too great for the water. All which were light and as the farmer walked in the room.

**It's NOT IN SANTA'S BAG!**

SANTA'S a big-hearted fellow, but there are some things even he can't bring. The greatest gift that we enjoy today — in the United States — is something neither Santa Claus nor anyone else could give us: our American heritage.

Nobody gave us the Declaration of Independence, the Constitution, the Bill of Rights. Nobody gave us the Four Freedoms. If we have the right to worship, the right to speak our minds, to read and write the truth without censorship . . .

Freedom was earned by Americans — paid for with vigilance . . . sacrifice . . . often with lives.

To keep this precious heritage we must keep on working for it — working together, Americans of every race and creed; voting in elections, taking in part community affairs, lighting races and religious prejudice, protecting our neighbors' rights as our own . . .

**Xmas Shopping**

(Continued from Page 1)

**Bill**

The greatest shopping expeditions will be by sevens. World that could as.

This strong the sober other night and for the other.

And then the love songs could be heard.

But love of one's state is destined to be.

And rule of some becomes a rule of some.

Now, this song has been revised.

And then the love songs could be heard.

But love of one's state is destined to be.

And rule of some becomes a rule of some.

Now, this song has been revised.

And then the love songs could be heard.

But love of one's state is destined to be.

And rule of some becomes a rule of some.
