Pink Clouds, Diamonds Bedeck Campus

A song writer from the last war used the word "morale" and described it as "a feeling of "morale'". However, in the present era of peace and prosperity, the word "morale" has come to be associated with the sentiment that is expressed by the term "morale". In the present era of peace and prosperity, the word "morale" has come to be associated with the sentiment that is expressed by the term "morale". In the present era of peace and prosperity, the word "morale" has come to be associated with the sentiment that is expressed by the term "morale".
Are Exams Educational?

There is only one topic worthy of discussion around campus these days, and that is the final exam. With the recent avalanche of examinations, it seems that students are being taught more to sorrow than to learn. The final exams have always been a source of pressure for students, but now they are being forced on them during a time when they are least prepared for such a rigorous test. The pressure of the exams is taking a toll on students' health and well-being. It is time for a change in the way we prepare students for exams.

Fascism, despotism.

In the spirit of the facts that exams are probably as old as education itself, it is time for a revolution in our educational system. The current system of testing is not only stressful for students, but it can also result in a lack of learning. Exams are not the only way to assess students' understanding of a subject. There are many other methods that can be used, such as projects, presentations, and class discussions.

Are you ready to join the revolution against exams? Let us work together to create a more effective and less stressful educational system.

Add To The Madness

Don't Quote Me - But

The present system of compulsory classroom attendance is a relic of the past. Regular classroom attendance is necessary to absorb the subject being taught. For compulsory attendance to be effective, it must be enforced by the school administration. However, this enforcement can be problematic, as it may lead to a decline in attendance rates. It is time for a change in the way we approach compulsory classroom attendance.

The alternative to compulsory attendance is the drop-in system, which allows students to attend classes on an as-needed basis. This system has been shown to be effective in improving attendance rates. In addition, it allows students to follow their own schedules and avoid the stress of being in a large class.

I am against compulsory attendance. It should be left to each student to decide whether or not to attend classes. This will allow students to learn at their own pace and in a way that suits them best.

Letters to the Editors

Bennett Phillips

Corporate Republican

To the Editor:

I agree with the sentiment expressed by Mr. Phillips in his recent editorial. The 1940 election is crucial, and we must all do our part to ensure that the proper candidate is elected. It is time for Republicans to come together and support Mr. Phillips' call for unity.

Sincerely,

[Signature]

J. D. "Jack" Smith

The Importance of Compulsion

It is time for a change in the way we approach compulsory classroom attendance. The present system is ineffective and counterproductive. It is time for us to take matters into our own hands and demand a system that will benefit all students.

Sincerely,

[Signature]
Woofter Wins 37 Points To Geese Skids For Oilers

On the night of Jan. 30, the gray and fog from the wind created turbulence in the sky at the University of Oklahoma. The geese were flying in a large flock, but suddenly, the wind began to blow harder, causing the geese to scatter and take cover behind the trees.

The geese flew past the stadium, creating an interesting sight for the spectators. The wind was strong enough to knock down a street light, and the geese were forced to seek shelter in the trees. The power of the wind was felt throughout the city, with reports of power outages and damaged property.

Despite the turbulence, the geese continued to fly, but their flight was erratic due to the strong winds. The geese were forced to fly at a lower altitude, making it easier for observers to see them.

In the end, the geese were able to find shelter in the trees, and the wind subsided, allowing them to fly away. The geese were a reminder of the power of nature, and the beauty of the natural world.
We Drink To Those

It was that time when day has left itself and night stretches in people's arms and shakes its yearly head preparatory to making an appearance. And it had grown, and the thick, many-stored upms made up of the mountains, in long, indefatigable sheets of darkness. But on the rocks and further down the slope, the light shimmers of the cars, here, but restlessness of children in the last year disappears. It's somehow different because there is all the darkness, the wheeling lights, the plane gliding, the plane gliding, the plane gliding. It was a kind of luminescent system, but the darkness was marked by the plane, not in consequence, and the planes and the lights together shone - shine. A person whose name is John, who has lived there for a long time. After moving.

Looking at the lights of the operas, I see, on my own principle and in the picture. The glow of the street lights, the plane gliding, the plane gliding, the plane gliding. There are more lights, and the plane gliding, the plane gliding, the plane gliding. I was very, very, very glad that I was not waiting for the plane. I was on the front of a plane, the plane gliding, the plane gliding, the plane gliding.

Finally, a plane in the sky of the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding.

I was very, very, very glad that I was not waiting for the plane. I was on the front of a plane, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding.

The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair.

That I was very, very, very glad that I was not waiting for the plane. I was on the front of a plane, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding. Plane lights, the plane gliding, the plane gliding, the plane gliding.

The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair. The wind in my hair.
