Kenyon Capers

As Mose's Boys Entrenche

Scots Anticipate Tough Battle

Starring Wagner and Rixey

By WOODROW ACHER

After an impressive victory over a highly-touted Mountain Union team, Coach Mose's Boys felt confident heading into tomorrow night's battle on the hilltop. That Kenyon Leads the Hill and the chances of a victory are looking good; however, there are a few setbacks in the fact that they have scored an average of 65 points in their last 10 games, but deferring favors to their opponents.

Capers averages 40 points to W's 42.7.

For this game, the Kenyon Leads will be in possession of the key Kenyon Leads.$1000, the Kent State University Conference of Columbus, the Ohio. Since coach has not been able to find a suitable team to take on, the team will have to face the untested players of the opposing team.

The Kenton bulldogs boast one of the top-five most formidable basketball players in their history. In recent games, they have played with great spirit and determination.

During next Saturday's' 14-17 basketball game against rival 'Mansfield,' Kenyon Leads$1000 will be a new challenge for the team. This means the soil will need to be prepared for the moment.

The team will be playing in front of a new audience. The number of their fans will be greater than ever before.
The “other separation” is really a minor and doubly unnecessary one.

**Care If We Knit One, Pat Two? Some Pros Don't Some Pros Do**

**By BruceQuiz**

According to the latest pronouncement of class, the class is not only suffering from social life but are now being made to do a little knitting. The latest fad in women is to knit in their sparetime, to make a robe or a scarf or a sweater or some other necessary article. The main reason the class is not satisfied is the fact that the work is too much and is not a success. Many of the girls say that they have been working on their knitting for a long time but have made no progress at all.

Some of the girls who are satisfied with the knitting say that it is a great deal of fun and that it is a great way to pass the time. They say that they have enjoyed making the article and that they have learned a great deal from it.

**Plagiarism**

Fridahed from the New York Times

Since the recent controversy over plagiarism in school work, the Assembly of the National Student Union has issued a statement opposing plagiarism. The statement reads: "We believe that plagiarism is a violation of the principles of fair play and good scholar." The Assembly also states that it is the duty of students to report any instances of plagiarism it may discover.

It is just the other evening that a bunch of us are sitting on the front steps of the Student Union, drinking soda and discussing our troubles. There is something particularly sad about this scene. It is a scene that we have all been through. It is a scene that we all will go through again. It is a scene that we all will regret. It is a scene that we all will remember.

We see you there, sitting on the steps, drinking soda and discussing your troubles. It is just the other evening that you are sitting there, drinking soda and discussing your troubles. It is just the other evening that you are sitting there, drinking soda and discussing your troubles.

What do you think? Woosten should order her be leggy boy as soon as possible? It is not something that is really important. It is just a matter of choice.

If you do not order your be leggy boy as soon as possible, you may end up with a boy who is not really important. It is not something that is really important. It is just a matter of choice.

Bowling Green Tanks Out-splash Scots 48-27

Friday, January 23, 1948

Coach Mooney Mid's win over the Scots will be an important victory because the Scots have been playing consistently well and have lost only one game this season. The victory by the Scots means that they will have to pick up their game and be more aggressive in their play. The Scots will be looking to bounce back from this loss and try to get back on track. The victory also means that the Scots will have to improve their defense and try to reduce the number of points scored against them.

Wheaton 97-89

The Wheaton team performed exceptionally well against the Scots, scoring 97 points against only 89. Their defense was strong, and they were able to limit the Scots' scoring opportunities. The team's performance is a testament to their hard work and dedication and should serve as inspiration to the rest of the team.

Basketball

The basketball game was a close contest, with both teams putting up a strong fight. The Scots were able to hold their own against the powerful Wheaton team, and the game was far from decided until the final moments. The Scots will be looking to build on this performance and continue to improve their game.

Soccer

The soccer game was a close match, with both teams giving their all. However, the Scots emerged victorious, scoring a goal late in the game to seal the victory. The team will be looking to replicate this performance and continue to build on their success.

Baseball

The baseball game was another close contest, with both teams giving it their all. However, the Scots were able to hold on and secure the victory, scoring a crucial run in the final moments of the game. The team will be looking to build on this performance and continue to improve their game.

Track

The track team performed well, with several members setting personal bests and breaking records. This is a testament to their hard work and dedication and should serve as inspiration to the rest of the team.
Poor "Full-Life" Seekers

By RAE PALUMBO

I'd like to narrate a story. It's about a dream I had the night before last. A dream that left me feeling... well, strange. I'm not sure if I can explain it, but I feel like it's important to share.

I was walking through an anthropological exhibit in a museum. Everything was so precise and orderly, yet there was this feeling of unease that kept me up all night. It's as if I'm always circling around this feeling, trying to understand it. Understanding is something I worry about a lot.

After all, I did well in all my anthropological courses; understanding was sometimes more important than the actual knowledge. I can't help but wonder if we're all just living in these constructed worlds.

I'm a dreamer, you see. Or something close to it. I don't know. It's just a feeling I have, this sense of being... here, but not here. Not quite in the present moment.

I'm trying to make sense of it all. Trying to understand why I feel this way, why I have these dreams. It's hard to put into words, but it's a feeling that's always with me.

Thank you for reading. And thank you for listening. It's been a little overwhelming to try and put these thoughts into words.
