SGA Candidates Make Bid For Channeled Maturity

Draft To Deplete Grad School Ranks

HERSHEY: "I WISH WE COULD TAKE EVERYBODY"

WASHINGTON (CPS) — The number of men entering graduate school as full-time students next fall will be 70 percent lower than it was last fall, if the government doesn’t change its current draft policy, according to a recent report.

The report, a survey conducted by the Council of Graduate Schools and the American Council on Education, says that “almost all” of them will be.

According to Mrs. Vetter, the data indicate that enrollments may be a third or more of those that would be if the draft were to be extended. "Our data show that few students have confidence in the draft’s ability to serve the nation," she said.

SAYS LILIENTHAL

Mideast Tension Due To Militant Zionism

Alfred Lilienthal spoke Monday night in the Library of Congress Rotunda in connection with the Middle East. Tension is due, he felt, to the militancy of Zionism and to blunders by the Western nations based on misinformation and fear of the power of the world Jewish community.

"Describing the Middle East as ‘the most strategic area in the world,’ he noted its oil reserves, position along traditional supply routes, and importance to three of the great religions: Judaism, Christian and Islam. But Lilienthal maintained that no ethnic or religious group can legitimately claim sovereignty in this area on the basis of historical descent because so many races have occupied it and because many Christians, Jews and Muslims were converted elsewhere and have no ancestral connection with the disputed land.

According to Lilienthal, when Zionism was established in 1917, the land of Palestine had been for centuries under the domination of the Arabs, and there had been no matters at issue.

Local Group To Focus On Vietnam

The Wayne County Citizens for an Alternative to the Vietnam War has been organized as a "town-meeting" to seek a change in present U.S. policy in Vietnam by checking political methods. The organization, according to Dr. Gordon Shall, is non-partisan.

The organization, which is at present in the embryonic stage, will probably be used closely with disseminating information supporting a change in our Vietnam policy, although no definite decisions have as yet been made public.

According to Mr. David Wilkin, an organizer of the group, the immediate aim is to inform the people, students and faculty, Wednesday night, Mr. James Bean addressed a meeting of students and faculty to solicit members and contributions for the effort.

Clouds ominously mark the sky over Camp Narrows Bay. Once considered to be the safest place in Vietnam, the Army has recently been the target for Vung Gong Mountain fires. Previous pic: Paul Macpherson, Life Correspondent. It is located here.

SGA elections for all but two student offices will be held during chapel Monday. No candidates have shown an interest in the office of President of the CCA. Also on the ballot will be proposed amendments to the SGA and CCA constitutions.

Running for President of the SCA are Chris Senior and Trace Sharp. Seniors feel that "the SCA must undergo a period of severe, reconstructive re-evaluation in order to become a more efficient and dynamic organization and to give the student a new start towards greater participation in campus affairs." He looks for Congressional reforms, stricter controls on the budget and a president that is available to all students and administration. He further states that the students must have the right to take action against outmoded rules and structures. However, this does not mean moving for "change just for the sake of change."

Sharp warns against an interruption of student power which, in effect, means "pressure from a handful of student leaders representing a random assortment of student interests." A student leader must be both creative and responsible and have to be able to control the situation and the nature and responsible way and be "at any rate in the administration that any changes he advocates are backed by solid student agreement." He promises a campus-wide poll this spring to determine the major issues of student life. With this Sharp would be able to confront the administration with "that sort of communication they have not seen before—a well-researched statement of Wooster's student temperament."
The Necessary Resistance

The question of involuntary conscription is rapidly becoming reducible to the question of the rightness of the present American military policy. The Vietnam war, with its attendant sacrifices and destruction, has made it more than ever our duty to consider the relevance of this question to our own society. Our intention is to put into the public domain some of the essential arguments against this draft.

Loud and Proud

We were amused but not at all surprised to read in a recent article concerning the choices that Americans made in Texas the following statement by Governor Allen S. Shivers: "...when the contest between Truman and me, we chose Truman ..." We can only hope that the next time the nation is asked to repeat this statement because of its political connotations, but rather to use it as a reminder of the state spirit of which Texans are so proud.

Such spirit seems to be the last fading away in this day of Castros, Khmer Rouge and Vietcong. Somehow Americans have lost much of the exuberance for their country that was so evident a few years ago. We seem to have drifted into an air of fatigue and criticism, when the cynic and the pessimist have become the voice of the nation.

With this in mind, perhaps it is a generation that has been reared in such a bleak outlook for their lack of enthusiasm for anything. In any rate, we are taking this opportunity to make a statement about the worth of the group spirit, or lack thereof, that we associate with the newsman on this campus.

The Strange Part of this is that student spirit has not disappeared completely, but now manifests itself in many unusual ways. For example, the few students who try to keep down the noise and rowdiness in their efforts that they associate with the pop group have described to us that they are enjoying their efforts by the variety of people who have been attracted to our meetings. There is nothing like a chronic shortage of volunteers when ever a call goes out for workers to help fill the stage from crew stages for plays to help for the WOOSTER VOICE and INDIE. It is also a result of the well"

SCHOLARSHIP

SCHOLARSHIP

BIRTHDAY RACIAL

To mark the birthday of the greatest composer of organ music, Prof. Richard T. Gore will play a Bach program in the Assembly Room of the Cooper Memorial Organ. The selections will be drawn from Bach's only organ collection published in his lifetime, the Third Part of "Keyboard Studies", consisting of preludes on various hymns, framed by the Prelude & Fugue in E flat. Many of these show the composer's whimsical imagination and the public's curiosity instilled by them.

Letters to the Editor

To the Editor:

I have been preoccupied with teaching a large General Education course this semester and have made room for more such courses; trying to cope with both the human and the课堂教学系统的逻辑性, I cannot afford a course like the academic life by the Vietnam war is an essential of the Vietnam war, as it has been in so many other wars. To oppose the war for Sen. McCarthy in the little time I have left—so I have almost no time, although I am at a major university which has a research-oriented, as I write, the new-established Black Mountain College was entered quite a few years ago. We seem to have drifted into an air of fatigue and criticism, when the cynic and the pessimist have become the voice of the nation.

with this in mind, perhaps it is a generation that has been reared in such a bleak outlook for their lack of enthusiasm for anything. In any rate, we are taking this opportunity to make a statement about the worth of the group spirit, or lack thereof, that we associate with the newsman on this campus.

"anti-Semitism" in the Middle East. Later in 1917 a British de-
claration stated: "His Majesty's government views with favor the
establishment of a Jewish national homeland in Palestine, providing it
does not interfere with the rights of non-Jewish citizens." He con-
cluded that "arguments about God-given land have never before
treated a situation comparable to one in which one nation gives to
another the country of a third." Lillianith explained that Israel has
come to a Zionist rather than a truly Jewish state, as evidenced by the
unwillingness of many Jews to give up their shared heritage and
the militant racial spirit of the country, a spirit which he con-

**STUDENTS BACK MCCARTHY MEN**

McCarthy Campaign Portrait

Wednesday night Wooster stu-
dents learned of opportunities of working with the 13th District
Citizens for McCarthy in upcom-
ing Ohio contests.

Mr. Robert Warner of Oberlin,
heading the 13th District efforts in
the counties of Medina, Lorain, Summit and part of Cuyahoga,
explained the candidates of James
Lang and John Kakafo for positions
at the August Democratic Conven-
tion. There will be considerable
need for students willing to work in
fund-raising, door-to-door can-
paigning, and office chores. College-
forces played a vital role in the
massive effort which McCarthy forces mobilized in New Ham-
shire.

Several Wooster students are
dunting for work with the 13th District
Group. John Dineen and Mark McCollough, who at-
ended the Dec. 2 Conference of Con-
cerned Democrats in Chicago, hope
to have 100 to 200 students sign up before voting in Jan-
uary that activities may begin in April. McCarthy's next primary is Ap-
ril 2 in Wisconsin. The election to de-
terminate Ohio's delegates to the
Chicago Convention will be held on May 7.

Delaney Discusses
Ghetto Teaching

Ralph Delaney has become known to an increasing number of Wooster students through his advisory position at Diversity House in the Hough area of Cleveland. Last Monday, March 18, Delaney met with interested Wooster students to share his views and experiences in the field of education.

The first group of Wooster students to come into contact with Delaney spent Thanksgiving vacation (1966) with welfare families in the Cleveland apartment building where he was living. This was the beginning of a long-standing interchange between Wooster and the people of the building which lasted into the summer of the Hough riots in 1966.

Shortly after that, Delaney went to Chicago to take part in several youth-training programs, and no further communication took place until the fall of 1967. Delaney, now back in Cleveland, has since been working with a group of neighborhood youth to set up the center called Diversity House (see VOICE article, 23). The center will open soon and Delaney, Wooster again has an open channel which connects him face-to-face with city people and their problems.

INTERVIEWS for:
Sales and Sales Management Training Program

This Program is designed to develop young college graduates for careers in life insurance sales and sales management. It provides an initial training period of 3 months (including 2 weeks at a Home Office School) before moving into full sales work.

Those trainees who are interested in and who are found qualified for management responsibility are assured of ample opportunity to move on to such work in either our field offices or in the Home Office after an initial period in sales.

Aggressive expansion plans provide unusual opportunities for those accepted.

Arrange with the placement office for an interview with:

Return from Spring Vacation — April 8-12
**Spring Teams Plan Southern Migration**

Three of the five Wooster spring sport teams pack their gear and head south this month for spring trips before the start of regular season play in April.

Hitting the road will be the baseball, tennis and golf teams, with the diamond team in West Virginia, Virginia and southern Ohio, the tennis team in Florida and the golfers traveling to Florida.

Wooster’s baseball team opens its 22-game season April 1 with a six-day, six-game swing to Dayton and Elkins College in Elkins, W. Va., a two-game series with Lynchburg (April 2), Hampden-Sydney (April 5), West Virginia Wesleyan (April 5) and Muskingum (April 6). The Scots open at home April 9 in a game with Baldwin-Wallace College.

The tennis team’s trip will be an exhibition tour with three scheduled matches as well as practice play. They play against Vincennes and Brookfield College on April 3, followed by Virginia Military Institute (April 5) and Marietta (April 6).

The golfers will go all the way south to Florida for the tour, beginning their journey at a stop in Virginia Tech (April 30). The Florida plays start with the Rees Course (April 1), followed by the University of Jacksonville (April 3), Rollins College (April 4), and the University of Tampa (April 5).

**Strike Advocate May Rescind**

Sprint star Tommie Smith of San Jose State College, one of the most vocal of the white athletes supporting a Negro boycott of the 1968 Olympic games, says that he will participate if a majority of the outstanding Negro Olympic probationists will.

Smith says: “I believe that total agreement, or something close to total agreement, is necessary for success in this. If my brothers and the majority of the outstanding Negro Olympic probationists can’t come to a resolution in this race and are not prepared to accept such action, then I will go on to fulfill my ambition to become an Olympian.”

Among the absences Smith did not try out for the U.S. Olympic team, are the opening of the All-American College Coaches National Track Meet and the possible boycott of the Olympic Games in Mexico City in protest to the United Nations’ resolution calling for the resignation of Prime Minister Evita Peron.

**Thindclads Place Fourth In Denison Meet; Team Led By Sophomores Noah, Ruffing**

by Paul Mayer

In a quadrangular meet at Denison University last Saturday, the Wooster track team placed fourth, despite some fine performances by Chuck Noah and Tom Ruffing. Akron won the meet with 61 points, easily outdistancing Ohio Wesleyan (53), Kenyon College (51) and third place Denison (37).

Accounting for a good part of Wooster’s 25 points was sophomore Noah. Once again he broke the 14 height in the pole vault, good enough to give him first place in that event. He also placed second in the long jump with a leap of 6’14¼”.

Ruffing broke the school record in the shot put last week, and set out to settle for second place. His time of 1:59.4 was the best ever by a Scot, although he failed to win at Denison. Ruffing ran in the 600-yard run, too; his time of 1:15.7 was more than a second below that of the winner, but Ruffing was disqualified and his time was thrown out.

Wooster had one other second place finish. Artie Wilson was runner-up in the 300-yard dash (35.0). He also placed fourth in the 35-yard dash.

Third place finishers for the Scots were: Wayne Hostetler, second in the 600 (1:18.0) and the 880 (2:01.1); John Blackwell, second in the 100 (10.66); and fourth in the 220 (24.52); and the eight-man relay team of Wilson, Clyde Guston, Blackwell and Wally Galaway (2:15.3).

Three Scots placed fourth: Ted Camp, in the shot put (137’2”), Rich Thompson, in the long jump (20 3’14¼”) and Bob Bruce, in the pole vault (17’6¼”).

A group of 10 team members left this morning for Kalamoso, Mich., to take part in the Western Michigan Relays this weekend.

**Girls’ Team Ends With 7-1 Record**

Finishing out the season, the girls’ basketball team left behind not only a commendable 7-1 record, but an impressive set of statistical records as well.

Baldwin-Wallace was the only team not to fall before the Lassies. Two teams, Carlow and Wheeling, were defeated for the first time, as the Wooster girls averaged 14.2 points per game, against the 23.7 they allowed the opposition.

Domena Beck, who averaged 14.2 points per game, was responsible for four of the new records. She scored 44 field goals in the season, topping the old record of 35, and made 22 free throws in the season for another record. By making the minimum five free throws in one game, and scoring 114 points in the season, she topped the school record.

Marty Robertson set a new record with a free-throw percentage of 87.5 for the season. Her field-goal percentage of 666 for one game tied with Carol Wood in arrowing for the title. Jo Annemer maintained a 50.0 field-goal percentage for the season, thereby establishing the new school record.

**Football Meeting Held Saturday**

The 13th annual Woosterfootball

The 13th annual Wooster football meeting was held last Saturday at Severance Gym. Coached by the Alumni "W" Association, featured a fully equipped and organized team of theматчатки.

When we arrived, the head coach was standing in front of the student body, speaking of the importance of athletics in the life of a student.

"The student who participates in athletics will be better prepared for life," he said. "He will learn the value of hard work, the importance of discipline, and the necessity of team work."

The meeting was organized to promote the idea of athletics as a vital part of the student’s life. The school administration was determined to provide every student with the opportunity to participate in athletics. This was achieved through the establishment of a new athletic program.

**COMMENTS**

**Center Aids Team, Individuals; Students Question Its Necessity**

by Chet Dunlap

As stated in last week’s VOICE, the new Physical Education Center actually consists of two sections: the curricular and the extra-curricular. The curricular section is to be completed when an adequate and balanced approach to the construction of the center is found. While the Center is concerned of as being a whole structure, it is conventional to discuss it in relation to the divisions that now exist.

The area under construction consists of the main gym and, underneath its seating area, a personal conditioning room and a wrestling room. The obvious advantages of these facilities is that they are dedicated to the development of the body on the gyn’s playing surfaces) and users. When the gym’s stocked mats are rolled back, two additional, small gymn. will be formed in the upper main gym and the accompanying gym. The former will be used for the wrestling team’s home meets (with possible quadrangular meets in the offering), and the latter will be eventually available for student-initiated activities.

Lockers rooms are not under construction, but will be included in the building after the major work is completed, as the student body will need to get new lockers. They will be an important part of the new building, and will be available for student use.

The new Physical Education Center raises many questions about the student body, the largest and most significant of which concerns the future of student life at Wooster. Will the student body be satisfied with the new building? Or will they demand more changes? Will the students be able to make the most of the new facilities? These are the questions that remain to be answered.

It is a difficult task to predict the future of athletics at Wooster, but it is clear that the new building will provide a valuable opportunity for the student body to participate in a wider range of sports. The new facilities will enable the students to participate in a variety of sports, and will provide a more conducive environment for athletic development. The new building will be an important step in the development of athletics at Wooster.
