REPAIRS FORCE DELAYED WELCOME

Scot Trustees Add New Members

Benjamin J. Failey and Charles P. Rummel have been elected to the Board of Trustees of the College at the June meeting. Dr. Failey is president of the United States Steel Corporation. Dr. Rummel, for twenty years a member of the Board of Directors of General Motors Corporation, has now retired.

Other changes in the Board of Trustees bring to twenty the number of members on the Board of Trustees. Judge Richard L. Cameron, of Wooster, a trustee since 1914, has joined the board. Dr. Paul E. Winter, Jr., has been elected an ex officio trustee.

Lucy L. Neusteter, '21, was elected to regular membership on the Board of Trustees following the close of the enrollment season. Miss Neusteter has been a member of the faculty and in charge of the freshmen register.

dr. vANCE dies

Dr. James F. Miller, geology professor, and chairman of the Department of Mathematics, died at his home in Wooster, Ohio, July 7. He had been seriously ill for some time. The services were held Friday afternoon, July 11, in the Auditorium, Rev. F. W. Brumbaugh presiding. Dr. Miller was graduated from Mount Union College in 1907, with the degree of B.S., and in 1912 from the University of Michigan, with the degree of Ph.D. He was a member of the American Anthropological Association, in which he was elected a fellow in 1937, and of the American Society of Human Ecology. He was also a member of the Conference on Research in Education. Dr. Miller wrote and published many papers on geology and archaeology. He was a member of the American Association for the Advancement of Science, and a fellow of the American Geographical Society. He was a graduate of the University of Michigan, and was a member of the American Archaeological Association.

To Start the Year...

A word of appreciation is timely for those of the VOICE staff who are back on campus for the first time this year. Jack Bobbitt, Herb Farm, Jack Lang, Sylvia Williams, Jack Levy and Herb Babcock have enjoyed an extra week of vacation, thus shared concerns, problems, and raptures.

We hope that this first edition of the VOICE will help you come back to Woonsocket for another year.

Independent Study Plan

With the start of classes today, the College of Woonsocket opens a new chapter in its educational history. The "adventure-to-education" approach of the campus President has come to fruition, the entire faculty class initiating the full-scale participation in the plan. Education at Woonsocket is no longer a mere absorption of facts and ideas from note-books. It is a process of "learning by doing." Under the guidance of the faculty, students are welcomed to learn by doing, and then present conclusions in a comprehensive form of creative original work. The student "must think" and "must do." While a department may present a broad field of study, independent study opportunities are a special interest, concentrating interrelations with a background of broad perspective.

The work done in the plan may be said to lie somewhere between a regular group discussion and a self-paced development. It requires a certain amount of the work which must be done by a liberal education for which a liberal arts college aims to lay a foundation.

With the independence of choice offered under the study plan, the student is free to select areas of interest and to train for the more important evaluations which must be passed through the educational process.

The independent study plan takes a long step forward in training such students of the Woonsocket campus. Opportunities which will must be applied to various forms long after Woonsocket is left and the Rock is slowly unshadowing away from the front of the Campus Facilitating Brings Hill Up to Pre-War Standard

Major face-lifting operations on Woonsocket buildings during the summer have brought the "today look" to the college campus. Many war-deformed repairs have been completed by the Buildings and Grounds Department, including:

- Big project is the resurfacing, repainting, repaving and re-decoration of Hildred Hall, expected to be finished soon. Installation of new plumbing, heating and electrical systems in the old classroom floor on the floors and dining rooms makes Hildred almost a new dorm.
- Outside woodwork on all buildings has been repainted in a combination of Tiffany, Westminster, Salem, Bennington and other color acceptance. Some Dorm students have been completely outside, as their painting has been done in some of them.
- New Chapel Door To the convenience of students, east wing door has been installed in the Memorial Chapel. Scott Auditorium is the door which now has been repainted peach color and has a new floor and one new seat on the stage. Severance Hall now has a new piano door. East wing door in the part above was also painted completely outside. The windows have been done in some of these.

Letters To The Editor

To The Students, Department of Woonsocket.

The columns of this paper are open to all students with customary respect for the courtesy of LETTERS TO THE EDITOR. (This is our chance for reader mail, and we rejoice in your words.)

If you have any comments, complaints or praise to offer us, we want to receive them in the space allotted to us.

New Bus Will Take 43 Gridders To Mountain Lair For Openers; Minor Injuries Plague Players

by Jack Dodie

Well gals and gals, here we are again back at good ol' C of C of Wooster and a hearty welcome to you all. The arrival of fall weather heralds the coming of another season, and those who have not a bus to take them around to the games which are to open this fall. But away has started and is indeed a welcome addition to the athletic department.

This year the buses have the longest and hardest schedule that they have ever had in years. The first game is with West Virginia University, September 29, and the final game is with Morgan Union here Thanksgiving Day.

A total of six games will be played—two weeks of solid fall ball for the stimulus.

The second game is with East Kentucky October 2nd. This should really be a rough and tumble contest since Kent is still in awe of the unexpected speaking we gave them last year. However, this year's units will be here for determining which will hold to the end of a season, and they are sure to have an easy victory for the larger chested patrons in Bolus stadium.

Unfortunately a big question in the head of everyone again this year is, "Why are we playing a big school like West Virginia in the first place when a larger school such as West Virginia offers us a chance at a school match such as we have," we are flattered and accepted by a very good football team. We are guaranteed connected with such an event, and the Pittsburg event has not been able to operate into the end this is advantageous to accept each other on what we are doing.

Four members reported September 7th.

FOOTBALL SCHEDULE FOR 1948

Sept. 25 West Virginia at Morgantown
Oct. 2 Kent State at Kent (night game)
Oct. 9 Hurons at Wooster
Oct. 16 Division at Wooster (Homecoming)
