Thirteen Campers U.S., Japanese Political Life

"The intellectuals and students in my country are fed up with the status quo also—but there is nothing they can do about it. The Democrats have majority support," says Professor Mituru Uchida of the political situation in Japan to the American political situation at the same time.

As a result of the institution of mass democracy in America, "division making power went to the larger electorate resulting in the alienation of the intellectual from politics; though they have a clearer view and greater insight they have a minority voice." -Uchida

Visit of Researcher

A professor in the Department of Political Science and Economics at Waseda, Japan, Uchida has spent the last six weeks in and around Wooster visiting the offices of the Political Science Department here and researching for his important monograph, the Advance Study of American-Japanese Politics.

Dr. Uchida moves to Enfield College this week where he will teach courses in Post-War Japanese Politics and Contemporary World Politics as well as talk to Political Science students and American politicians as part of his research until May 18.

As a Congressional Fellow, 15 years ago, Uchida met with then Senator John F. Kennedy and Harriet Humphrey, at the time a young and shining star in the American political scene. He feels Washington has changed considerably since then. "Everything is more civil and no longer a dirty ugly city and I was scared to go out at night," he says.

Violent Melting Pot

The heterogeneous nature of the United States' population is fundamental to its problems of law and order, said Uchida in explanation of many of the English and American politics alike on the streets at night. "There is a change of voice which has its base in a natural but a resultant policy of the principle and policy of welcoming of so many cultures together."

"Japan is known as a closed country, a homogeneous society and there is no race consciousness."

Japanese are born Japanese, Americans are not necessarily born as Americans and in this way America is a very unique country," continued Uchida.

Humphrey's position has also changed in the eyes of Uchida. Humphrey was then a mostly popular senator among the American fellows and Uchida finds it difficult to understand why he has lost popularity. "Humphrey has become more like the Senate than like a White House incumbent, while Nixon's actions are those of an incumbent," observed Uchida.

"I am traveling to Canton and Akron" -Continued on Page 5

Not A World-Peace Panacea But Wooster-In-India Unique

It does not offer idealistic solutions to world problems; it does not necessarily aid world programs. The program is not a work project, not a mission anywhere, not a social service; it is a unique project in human understanding between students of two nations, two colleges and two cultures.

This is the Wooster-in-India program, an opportunity for those of us who want to get out of our meat circular grooves, to look around, to find some of the challenges of being one of the most exciting, and one of the most crippled, new nations in the world. It does not require a knowledge of India, unusual talents, or hard work to be part of the program; you only need to learn a little about learning and to be willing to bring India to Wooster and send a representative to India.

Two Years in Allahabad

This program, supported entirely by the college community (not ever any financial aid), enables a Wooster graduate to spend two years in Allahabad, India, as part of the faculty of the Elgin Christian College. Presently Pete Jenks is at Allahabad, England, sorting as dorm resident, participating in the sports program, taking part in the Wooster-in-Elgin College. On the Wooster campus the program can arouse interest and increase familiarity with Indian culture through films, exotic dinners, dance, music and other art forms. Wooster is now especially appropriate for this international encounter because of the Cultural Areas Studies program and the Department of Indian Studies which also enable us to discover Concatenation without being damped down by the Wooster rain.

Applications Solicited

The Wooster-in-India committee is growing toward the goal of having hopes for an expanding program. We solicit interest and two members, as well as re- signed senior men that a representative for 1969-70 is to be chosen. This year's meetings are held Thursdays at 7 p.m. in the Blue Room.

Applications for the Wooster-in-India program are now available. Students interested in spending the next two years in India teach students from Elgin Christian College please contact Don Barr, P.O. Box 1105, for details and application blanks.

By Tom Fitt

Late last Thursday night, Oct. 17, Charles Turner, a freshman at the College of Wooster, was assaulted in front of Lowery Center on Wooster Ave., for, so Turner relates, no apparent reason.

Turner suffered bruises and abrasions, no apparent concussion or broken bones. The only clues so far are that Turner is quite sure his assailants were not students of the College, and that they were a carload of boys he observed to be the same age or younger than himself. Though no license number was taken, Turner thinks he can identify the car and probably the driver.

Dean Howard King stresses that "no actions are the rule, however, there have been isolated incidents similar to the Turner case." Says King, "This is not a happening unique to Wooster, I've talked to friends from other colleges and universities and they have the same problem.'

Stick Together

King advises students to "stick together" when walking around the campus late at night. There is a new security system in being re-established, which will be new policies which should lessen the chances of such occurrences in the future. King mentions. There will be a later statement detailing these changes.

A warning from King: "We urge students to stay away from "gold" dorm areas late at night. There have been reports of powderings in the past few years and, to save the students embarrassment, it would be better if they avoided these areas.

Youth Picked Up On Drugs Charge

Wooster police plainclothes detective Peter Raymond, by request of the College, picked up a juvenile on campus Wednesdays morning for attempting to peddle amphetamines.

"Students, concerned by the youth's apparent intention to sell the drugs on campus, had noticed the Dean of Men's presence. The 16 year old from Bronx, New York, who calls himself "Righteous" in a Spanish class at the time of his arrest, is now being held in the Wooster jail for a hearing before juvenile authorities.

The youth told students while in the Union Tuesday evening that he had hitchhiked to Wooster with a truck driver and was on his way to the College. He said of Wooster, "As soon as I hit Wooster, I knew I had the feeling that something was really happening here. Someone here really knows something."

"Righteous" told students he was carrying "fox" he had received from a truck driver and he had spent the previous night in a "high" on hallucinogens. (Gristled on Page 6)

Students Trustee Approve Chapel Revamping

"Last May the Chapel Committee brought in a recommendation for a new trial format for the chapel exercises. We have decided that minor modification, this recommendation has been approved."

"Therefore, beginning next semester, there will be a full thirty minute period designated as the chapel hour on Tuesday and Thursday. The program for the semester will include eight thirty minute consecration lectures and twenty mid-morning assemblies of briefer nature. Further, attendance audit will be given for eight campus life events occurring in the afternoon or evening. It should be further noted that approval of these changes is with the understanding that the selection and participation of students, and the type and form of assemblies will adhere to the religious dimension of the College.

"The attendance requirements have not yet been worked out. In all probability, however, they will be unequal proportions now required. This new system will be evaluated in about one year and we shall consider any further changes at that time."

Campus News Notes

• Gilligan Italian-style Spaghetti Dinner will be held at the Lamplighters Club on Rebecca St. Saturday night, 5:30 to 8 p.m.

Admission $1.75. Richard Celeste of Cleveland is the featured speaker.

• Applications for the Washington Semester this spring are available at the Political Science bulletin board on the first floor of Kauke. The deadline for applications is Oct. 30. For any additional information see Professor Baker in K114.

• Migration Day—Saturday, Oct. 26, to Kenyon Colleges. Tickets for the game are $1.00 in physical education office. Buses leave the gym parking lot at 12:30 p.m. Sign up for buses in SGA office.

• Anyone answering advertisements of the International College Association in last year’s V.O.I.C.E are requested to furnish Mr. J. J. Sullivan, Postal Inspector, Boston, Mass. 02107, with canceled checks, money order stubs, etc., as well as any mail information; this information is what is needed in which received, if available. Correspondence and envelopes received from ICA should be initialed and dated by the student prior to forwarding. The Center’s activities are being investigated for mail fraud.

Frosh Beaten On Beall; Few Clues Now Available

by Tom Fitt

Late last Thursday night, Oct. 17, Charles Turner, a freshman at the College of Wooster, was assaulted in front of Lowery Center on Wooster Ave., for, so Turner relates, no apparent reason.

Turner suffered bruises and abrasions, no apparent concussion or broken bones. The only clues so far are that Turner is quite sure his assailants were not students of the College, and they were a carload of boys he observed to be the same age or younger than himself. Though no license number was taken, Turner thinks he can identify the car and probably the driver.

Dean Howard King stresses that "no actions are the rule, however, there have been isolated incidents similar to the Turner case." Says King, "This is not a happening unique to Wooster, I’ve talked to friends from other colleges and universities and they have the same problem.'

Stick Together

King advises students to "stick together" when walking around the campus late at night. There is a new security system in being re-established, which will be new policies which should lessen the chances of such occurrences in the future. King mentions. There will be a later statement detailing these changes.

A warning from King: "We urge students to stay away from "gold" dorm areas late at night. There have been reports of powderings in the past few years and, to save the students embarrassment, it would be better if they avoided these areas.

Youth Picked Up On Drugs Charge

Wooster police plainclothes detective Peter Raymond, by request of the College, picked up a juvenile on campus Wednesdays morning for attempting to peddle amphetamines.

"Students, concerned by the youth’s apparent intention to sell the drugs on campus, had noticed the Dean of Men’s presence. The 16 year old from Bronx, New York, who calls himself "Righteous" in a Spanish class at the time of his arrest, is now being held in the Wooster jail for a hearing before juvenile authorities.

The youth told students while in the Union Tuesday evening that he had hitchhiked to Wooster with a truck driver and was on his way to the College. Letters To The Editor

BOOGIED THE COSYS

To the Editor:

Committees are appointed. Discussion on potential search for solutions and supple- mentary hours, chapel, sororities, offices, and other campus issues. These issues, though still import- ant, may have been somewhat worn, and often. The colleges are bogged. It seems necessary to back-pedal a bit to the fundamental principal which underlies these problems. The issue is education and living in an increasingly complicated world is the most important. When one comes to Wooster one is received into a community. We are not here to work for it, but we must work for it within bounds. We are not free to do as we please. Only those things offered are available. This is a sphere in which those pre-exploded sphere set-up by edu- cational policy, the living situation, and the college itself, is permanent. It derivates from the principle, i.e., one receives the education via the college, has the privilege of acquiring the knowledge. Personally, I came to college to get my own education. To be ex- posed to new ideas, to grow, and to reject, To question. And finally, to determine which of those assimilate. I did not come to get a particular education which some- how that thought was good for me to have. It seems valid to say that a par- ticular idea should stand on its own merits. Hopefully it will "be" self-sustaining. How does one attain its strength? On the contrary, for an idea or philo- sophy to be valid, it would need its inevitable weakness. To insure the survival of a principle it must be constantly ques- tioned and re-evaluated. It further appears that this con- stant re-evaluation is necessary. People are different. Needs, socio-economic pressures and political envi- ronment are different. To insuresure, therefore, it is necessary to let each individ- ual decide for himself the education which will fulfill his needs. Each has his own life to live; only the individual can de- cide how education will be ap- propriate.

The duty of the college is to create an environment in which one can learn, to provide the teacher, to where each member of the com- munity is free, to be a member in any fashion and on any issue which fills the need. If the particular teacher or student fails to promote it he must resign. Freedom to view, to promote is valid, Enforcement im- plies a negative thing. Freedom is lost when we make a particular point of view or life- style.

In short, does this college think- positively? Does it have an opti- mistic, life-expanding view of the world? Or is it necessary to enforce rules and structures which point to pessimism?

All this smells of anarchy, but a healthy kind of anarchy. Anarchy can and does grow and mature. Anarchy in which all have the freedom and en- thusiasm and the opportunity of becoming what they want to become. Is it right for people to vote who have never been to the polls?

David Wright

Chapel Repackaged

The chapel announcement of last Monday concerning a restruc- ture of Chapel services would have been almost fine, had it not been for the rather strange and new experimental system which has been added and will shortly be implemented.

In fact the decision does evidence, in the area of program con- tent, a sacrifice of quality for quantity, at long last. But beyond this the proposed creation of a "new" format which would have replaced a multi-year study and a thorough research on a subject, new and experimental system has been added and will shortly be implemented.

For example the decision to send the choral groups to the USA for a year, accompanied by the formation of "choirs," an extension which will most probably expand the antagonism of forms and traditions of chapel to concerts, Colleges sponsored forums and art exhibits.

The Board's approval of the "new" structure does not state that it is an enterprise which could be achieved, (though there probably was a tacit agreement between the Board and the administration that it would be the case), it is an extension which will most probably expand the antagonism of forms and traditions of chapel to concerts, Colleges sponsored forums and art exhibits.

And attendance requirements have not yet been worked out. Before they are, there are some major questions which should have been raised.

First, why are requirements necessary? Are we not responsible people? Should we not be trusted with the information, not to us and therefore attend of our own free will? Or are the programs not of a consistently high quality which would entice us to participate in them with some foresight in the sense of "If I don't like it, I can always leave it off." Perhaps, there are so many other demands placed on our time by the present institutional structure that without the threat of a fine we would not feel we could afford to attend.

Is it the quality of the student or of the program which the creates the need for requirements? If, in this new form, and I do not feel it is, then it is a sad indication of the kind of student we are bringing to Wooster. For the quality of the program then the "new" structure allows for improve- ment which should replace the need for the requirement.

But is the college taking any steps to inform the student of campus life events which it is presumed, art exhibitions, lecture programs and other events? But that is what the SGA handbook, underground movies, poetry readings at Zeitgeist or pop organisms in Mom's also qualify?

On the whole, this new experimentation, if only temporary, lowers itself in terms of modern college life events which it is presumed, art exhibitions, lecture programs and other events. It is a complete negation of the entire community when there are no facilities for such a congregation and when the community is becoming increasingly centered in such spiritual capabilities.

Students are not requesting anabolism of chapel, only some- thing -- a bit of a departure. They certainly are not requesting an extension of present attendance requirements to other areas of cultural opportunity at the College. By the same token they certainly consider this type of program for which they are asked to approve a new time schedule for next semester as a matter of principle. This consistent culture of chapel can now be responsibly eliminated but why color new freedoms with the somber tones of amoral pet- ferations?

GUANO

Who's Where?
by Ken Schults

I don't know when we came back to campus this year, but I've been in touch with almost all of you who haven't yet passed Cafe 154, that means I've been in touch with everyone except one or two who still haven't gotten my college phone numbers and addresses. If your friends and mums on campus, that might not seem to cause much import, but somehow this is not amusing. See I'm trying to get in touch with our editorial advisor for two weeks to see if he'd print a column I wrote one. Thanks to the incompetence of whoever is responsible for the directory at this stage of the game, I had to get down on my knees to say editor in front of 1,000 people at the annual meeting to my friends, unless you weren't there? Congratulations.

Anyhow, here's a column. Cut it out and mail it to your parents to show them where your activities are/free (is going or show them your Index is). Or mail it to my parents (they've already read two.)

I'm a part of the old chapels, I was trying my damndest last week to get connections with a telephone, but I'm stumped, young lady for purposes of con- versation. Pursued to establish personal contacts for three minutes, 47 seconds of un-interrupted telephoning, even to talking to one of frosting in informa- tion, the college telephone operator, the problem is this: that I had no other way of ob- taining the name and number of the phone, that it was not constitutional right to have such information, either for personal, or for quizzing, Dr. Mr.

MOVIES THIS WEEK
FRIDAY: "I Am a Cameraman," with Lawrence Harvey, Shirley Jones and Gentile, at 9:30 p.m., Mason Auditorium, fee.

Humphrey: For President

While few of us are particularly enchanted by the ultimate and anti-Congressional, his choice which is highly unlikely to be elected, and election few can deny that the campaign is enchanting.

We are aware that certain changes are necessary in the present structure of the state and the College. The threat of the Wallace campaign also points to needed changes in the electoral college structure and function. We should also be aware of some apathy and lack of information on our part on what this means as participating members in the American form of democracy.

The primary purpose of this editorial is therefore a call to political activity. A call for all registered voters to VOTE on Nov. 5 and to those eligible to vote to make sure their votes in campaigning support of a presidential candidate and candidates for all other positions on the ballot of your home State prior to Election Day.

The campaign has been characterized by a categorical ploy of dissatisfaction with all major candidates running for an office (in this case the office of the Presidency) is irresponsible. VOICE joins thousands of other students and Americans in support of Hubert Humphrey for the office of the President of the United Stated for the following reasons:

Humphrey has taken definite policy stands on the major issues of this campaign (those being Civil Rights, law and justice, and foreign policy), while Richard Nixon has remained silent or vague apparently for fear of alienating borderline supporters.

Humphrey's record on civil rights and statesmanship in law and justice are liberal and indicate a deeper understanding that the causes of America's problems in this field need solutions different from those which have been understood or attacked than either of the other major candidates.'

Humphrey's stance on nuclear arms is also clear or acceptable his support of a bombing pause and his further support of the Nuclear Non-Proliferation Treaty are more closely in line with the majority of the American people than either of the other candidates have committed themselves to.

Statesmanship and the political mind of Humphrey's running mate, Senator Edmund S. Muskie of Maine and White House team than the Nixon-Agnew and Wallace-LeMay combination.

We also consider Humphrey's position on the war in Vietnam a nationally televeled debate to be an irresponsible if not irrelevant point against Nixon.

All six College administrators in the formulation of this statement express strong opposition to the candidacy of George Wallace because he would not have been a racist and a separatist; his domestic and foreign policy statements elect him he would not have the congressional support or the power to govern.

We do not feel that our support of Humphrey is an endorsement of the policies of the past Democratic administration any more than our support of their support an endorsement of past Republican administrations.

SCROLLS: The voice are the editors of this week's RESERVE- TUBE, Guys' Column, College Le Post's WULF, Kent State University's THE DAILY KENT STATER, Lake Erie GOL, THE CYMBAL, and Youngstown State University's THE JAMBAR.

GUESS WHO'S COMING TO DINNER

I have been encamped here for a month and a half now. It sure seems hard to believe I'm going home in a little more than a month. We do get here a lot of good food to eat. I would say in a way to dinner—they do get a lot of rain here. Every night they let God rain His tears down on us and then they let Him with His tears water the plants. I really don't know that I can stand for supper? Maybe He can not make them I sure have a funny God here. They let God make them and then say they won't eat it because they ask for God that morning. They also make bread, of course. We have bread in a m'ntled staff—stake them and try to trick them. They gave us an equal sheet and a stake around it and red stuff on top. They think kids most nobly last night they forgot to squiggle the tray and again so I did it with my nose instead of my hand and I have straight peanut butter, and then brought home a little jungle for people to eat. They also seem to want you and they even give you a little jungle for milk. Some of their things taste better than the other one.

Unanimity Marks Community, Unity Truths

Unanimity marks the analysis based on a new interpretation of experience and the world. Unanimity constitutes both the completion and the fulfillment of the substance philosophy of the process of thinking the East. This term is occasioned from unity and convergence, the absence of both of their weaknesses. Unanimity signifies a healthy fullness (the pushing of self) of selflessness (running away from self) and self-sufficiency, but selfless and self-full. Unanimity is the universal for-ness which remains fully for the self and for all local and immediate, yes, for all relevant concerns. Unanimity manifests the freedom of the notion of the self for genuine self-fulfillment and the teleological limited and regional interest. According to this condition and the world from inside and free from personal involve- ment, viewers can always be wise for and free from all conventional concerns.

Ruth is the outstanding of Universal Spirit as the inner identity of all, in that in the di- mension of creation the deepest reality is participation in the one, and also the outstanding of Concern in such a way that the creator is the creator even when we most deeply are and just find fulfillment as universal men. The only final appeal of any social theory is to explanatory adequacy and to directive power. It must both account for the facts and offer the fullest fulfillment of the social and the social. The community appeals to us and it is the way to take universal men and women, with corresponding individual con- stitutions, apart from being the creative man or woman, to be and fulfill universally what we are meant to be, nature. The members of a world of community that encourages local and regional creative diversity. We cannot be the world ourselves any more, and women, with corresponding creative con- stitutions, apart from being the creative man or woman, and fulfill universally what we are meant to be, nature.

WHAT IS THIS

L. C. Board Still Reaching Out

by Lee Parks

The Lowry Center Board, in its newness, has many important events that are generally known, but which are rapidly be- coming more public.

The success of the first year of the Board is crucial to its future importance and power. I urge you to present the Board with any questions or suggestions concerning the Lowry Center and social events.

The Lowry Center has many purposes and functions, and with responsible government of its body, it can develop and provide with all the social activities and means of self-expression that Wooster has often lacked. The purpose of the Ad Hoc commit- tee was set up to plan the present affairs of the Lowry Center. It was recognized that such of the SGA's campus social planning would be directed to the union and a permanent govern- ing body needed to be set up before moving there.

Board of Governors

A Lowry Center Board of Gover- nors was formed consisting of the following: the director of the union (Mr. Harold Cleveland), the college business manager (Mr. Arthur Palmer), the Dean of Students (Dean Riggs), three faculty members (Mr. James Benson, Mr. Joseph Lawrence, Dr. James Norton), two representatives from the Program Board (formerly the Campus Affairs Board, Katie Man- natt, Paul Lissentic), the chairman of the Program Board, formerly Mr. Chris Arc (Trevor Sharp), Secretary—adven- ture from petitioners (Nancy Tho- mas), Treasurer—adventures from petitioners (Jenny McKenna) and two students elected (Morton Parks, Bruce Harris). The chair- man of the committee elected by the Board last spring.

Individual Committees

This year is a part-time Community Theatre Board consisting of two faculty members, one research associate and instructor, and one of the Department of Education and Social Welfare. The study covers a comprehensive compilation of comparative data for institutions of higher education. Some of the data will be included in the report.

Major components will be broken down by various indicators, including the dollar cost on a cost-per-student basis, the pre-student and the post-student basis. The study may furnish valuable material to the Board of Governors. Communication links with the administration, faculty, and the SGA are included by their representatives on the Board of Governors.

We operate on our own budget ($131 per student from the Activity Service) and we have ideas of doing the program and the work more effectively. We can and will ask the Board of Governors. Communication links with the administration, faculty, and the SGA are included by their representatives on the Board of Governors.

Jobs Tree for The Asking

by Tom Pitt

Jobs are available for the following: both on and near the Wooster campus. The Food Service still needs about 10 students, prefer- able male, to help with breakfast and lunch at Lowry Center, Mr. Beck also has places on his payroll for those interested in helping the maintenance division.

Galpin Hall offers many students and are looking for more. The Dining Office needs someone to operate the Yoeman, Yoeman, Yoeman. The Computer Department is now going strong five nights a week, a job for a computer student.

The Administration Office is impressed the high schoolers coming for campus tours.

Time-Life Magazine offers stipends to reproductive students who attend their classes. Stipends especially is raking leaves, washing windows, or doing a little yard work. These "around the house" jobs wait for students.

Off-campus jobs are much more numerous and is paying. As Mrs. Ruth Cruver says, "The jobs are here. All we need is for students to turn the page and be willing to work." Local indus- tries are always calling the Col- lege asking for lists of people. Wooster Brush and Rubbermaid are primary examples of corpora- Cumulus College Ford Grant For Cost Data Study

The College of Wooster has received a grant of $10,000 from the Foundation, according to an announcement by President J. Garber Druehl. The grant will be used to undertake portions of a research study conducted by Mars H. Jenny, Vice President of Budgetary Affairs and Director of Institutional Research, and C. Richard Wynn, research associate and instructor in the Department of Economics.

The study covers a comprehensive compilation of comparative data for institutions of higher education. Some of the data will be included in the report.

Reperatory Group Stage "St. Joan"

A company of actors, known as the ALPHAO-MEGA PLAYERS at the College of Wooster, presents some scenes from George Bernard Shaw's St. Joan in Memorial Cha- irman, at 8:35 p.m. tickets, WWU Repertory Players, a unique repertory group, are on a coast-to-coast tour, are being pre- sented at the College of Wooster.

The Alpha-Omega Players, St. Joan finds heightened meaning in the form in which they are being presented. The revelation of the Good of Arc, the company's presentation of St. Joan, and the men who had key parts in their total fulfillment of the National Film Board of Canada. The film, directed and produced by Canadian filmmakers, is recognized as a significant work of art and is often compared with the American underground that has focused attention on the vanguard of the American underground. There are six films included in the program, of which several have been Oscar nominations and film- ming. Some of these "Sky," which will be presented by VOICE at 8:00 p.m. Thursday in Madeir Auditor- ium.

The program, one of eight in a series distributed by Bell and Howell Company, includes films by French, Italian, German, and Canadian filmmakers as well as American filmmakers by such as Gerardo Robinson, Burton Ruben, and Ken Jacobs. The American filmmakers are particularly active in the underground filmmaking, and are often compared with the American underground in that both are geared toward constructing a new and expressing the fullest possible freedom in reality for creative adventure.

Energy, Directness Apparent In Sky

The raw energy and directness of Canadian filmmakers is apparent in "The Canadian Underground," a 90-minute program of selected films that will be presented by VOICE at 8:00 p.m. Thursday in Madeir Auditorium.

The Scots' victory over Denison last Saturday means more than winning the Homecoming recorded at 21-23; 4 or raising the season slate to 2-3. The 28-0 shutout probably saved Wooster's football season.

"This was a must game for us," said coach Jack Lengyl. "We got our tails whipped by 36 points the week before, and if we'd have lost Saturday, the bottom could have fallen out of our year. Before the Denison game, we regarded it as the keystone to our season. I think it was a real good test of our true colors."

Lengyl is right. The Scots lost to a Mt. Union team they should have beaten and then ran into the Ohio Wesleyan juggernaut that rolled over Wooster 45-7. What had looked like a promising season was quickly turning into a replay of 1966 when the Scots lost eight of their nine games.

But that trend has been reversed and now it appears that Wooster can win the remaining four games to wind up with a 4-5 season. The Scots' 30-0 victory would bring the Scot league in excess totals to 5-2, which would probably be good enough for third place.

The Scots have to face Kenyon, Hiram, Capital and Oberlin down the stretch and only Capital looks like a real challenge. Wooster blasted the other three schools 52-0, 33-11 and 56-0 last season and none of the three is much stronger.

Lengyl declined to come out and predict that the Scots will take these next four games, but he feels "we have the weapons to do it."

The Scots proved that last Saturday. Ask Denison.

FOOTBALL CALLS

By Paul Meyer

No. 30, John Hall, and Bob Blessington led the Irish 30-0 over Denison in record time.

Scots Bag Denison in First Win

Some team did it twice, and the Lord's press guide rates them the "top offensive threat on the Kenyon team. He has a great pair of hands and tremendous moves."

But with a guide like that, the Scots were left--all except for a line that had beaten Denison twice and third in five outings overall. Tomorrow Wooster visits Kenyon and should even its record at 3-3.

"Everybody did well," Lengyl said in reference to the Homecoming win. "Our morale was excellent and the execution was as good as it's been all year."

The Scot offense, which had been almost non-existent since the Swarthmore rout, came to life with four touchdowns and over 400 yards gained. Leading the crew was Ed Thompson, who rushed for 150 yards in only 17 carries and scored one touchdown. He was 7-for-7 in the air for 143 yards. Thompson now has totaled 439 yards in 68 trips on the season.

Quarterback Boardman hit on average of 14 times for 112 yards, while wide receivers Bill Myers and Jeff Winslow scored 36 yards on two catches.

Standing through the entire game, Wooster was never really threatened. The Scots scored early and often, and their defense was outstanding. The line was the key to the victory, allowing only 15 points scored.

TAILBACK JOHN SAUNDERS (22) moves to the line of scrimmage behind a blocking wall formed by Scots Danny Keys, Bill Myers and Jeff Winslow. Action occurred in Wooster's 28-0 Homecoming victory over Denison.

Harriers Face Tigers; Win Third In Tri-Meet

by Tom Hilt

The Wooster Scot cross country team will travel tomorrow to Wilmington University for its second dual meet of the season. Last year Wittenberg did not show up, and thus forfeited a meet scheduled here.

Running for the first time on their new course, the Scot harriers placed third in a very close triangular meet last Saturday with teams from Marietta and Central States.

Setting the new course record was Calvin Williams of Central States with a time of 21:52. Williams was closely followed by his team mate, Duane Robinson, who registered a time of 21:56.

Miller Snaps
(Continued from Page 41)
Stu scored his third goal and his second unassisted one with a shot from his wing position into the corner of the Kenyon net. Coach Bob Nye then experimented with Radja on the front line, and Pierre put on a show for the crowd with a couple of bullet-like shots. Then with 17:30 gone in the third quarter, Nye's strategy paid off with a goal "la Pierre" on a pass from Bill Yockey. Both benches were cleared for the scoreless fourth period action.

Woodrow's defensive corps, led by Mary Krohn, allowed the Lords only 13 shots, of which just two were in the first half. Krohn's job was to cover last year's Ohio collegiate scoring leader, Ned Strychn, and he stopped the scoring and cold with only three shots. Goalie Ted Caldwell recorded his second shutout of the year. Steve Gerstman was moved back to fullback for the game to replace co-captain Rich Martinez, who is out with a knee injury. Martinez is a doubtful starter for tomorrow's game.

Dan Adams displayed some fancy footwork and he along with Bob Dow and Steve Scott played well for the offense behind Stu Mil- ller. The beaters registered 33 shots throughout the game to the 13 for Kenyon. The Lords were running up in the NCAA Midwest College division finals last year and this victory may be an indicator of greater success for the Scots.

LATE SCORE
On the strength of a penalty kick goal by Bob Dow with only 2:46 gone in the first quarter, the Scots beaters edged the Falcons of Bowling Green, 1-0, at 8:00 this past Tuesday afternoon. The rest of the game was highlighted by long shots, fast breaks, and rough play. Goalie Ted Caldwell was a standout for Wooster as he recorded 15 saves in achieving his third shutout of the year.

Uchida Interview
(Continued from Page 1)
to see Wallace and Nixon, Uchida also felt they were feeling the hokkies while Humphrey has ap- parently been sensitive to them and ignored by their actions.

It was the feeling among all the Japanese correspondents in Wash- ington with whom he spoke in August that Nixon would win the election, said Uchida.

Turning to the problems within the Japanese university system to- day, Uchida said that the Univer- sity of Tokyo and Nihon Univer- sity are closed as a result of a conflict between students and con- servative administrators.

The struggle began at the Uni- versity of Tokyo when medical students seeking reforms went on strike. After the war Japanese uni- versities were restructured on the American model. The medical students particular complaint is with the intern program which was not a part of the pre-war German educational system and which they do not feel is working in Japan today.

The strike at Nihon (literally Japan) University began when financial irregularities were dis- covered in administrative budgets, according to Uchida, and students demanded the resignation of Uni- versity administrative officials.

Students in general are also protest the feudal lordship of de- partmental professors and chair- men in the university and are calling for a democratization of the teaching and university control. Conservative faculty members on the other hand would like to see a return to the highly cen- tralized university system of pre- war Japan under the control of a government Ministry of Edu-

nation, according to Uchida.

The majority party in Japan to- day is the Democratic Party which is favorable to a balanced with the West, explain Uchida. The Japan- ese Socialist Party is the major minority party with neutralist sym- pathies. There are three other op- position parties which occasionally form coalitions and represent other socialist and communist political elements.

The major area of political con- frontation today is a 1960 Security Treaty with the U.S. which will come up for renewal in 1979, says Uchida. Japan is still technically in state of war with Russia and China because no treaties were signed with them following the war and according to the Socialist party the treaty with the U.S. prevents Japan from making peace treaties with those countries.

Uchida claims the Democratic Party and ultra-conservatives feel Red China would be a big threat to the future of Japan if it were not for the Security Treaty and would therefore like to maintain the present ties.

Laborers, students and the So- cialist Party, however, feel China is not an aggressive nation and that it could cooperate economic- ally and politically with Japan, ex- plained the Professor.

Uchida also spoke of the prob- lems and influences caused by urbanization in Japan. Rural areas, especially southern prefectures, are losing their populations rapidly and the population of greater Tokyo today is nearly 10 times larger than it was in the year 1900.

The industrial centers of Tokyo and Osaka are drawing many of the younger generation away from their families and breaking down the pre-war family structure of dic- tatorial paternalism, points out Uchida.

Since the Major Restoration of 1868 in the Zen Buddhist beliefs, Buddhism as an urban religious influence has declined rapidly. The temple, formerly a center of social life, is today visited only for mar- rriages and funerals of relatives, says Uchida.

Christianity, however, is a grow- ing urban phenomenon, added the Professor. Christians in Japan are mainly converts from Buddhism and their Christianity very seriously, he said.

"Christians in Japan are just like a mer rican cities," concluded Uchida, "except they are newer and the public transportation sys- tems are much more highly de- veloped so that a car is not a luxury. Some railroad stations around Tokyo handle a million passengers a day. In America, if you don't have a car, life is rather miserable.

Scots, OWU Tie
Jean Yockey
Homecoming brought Ohio Wes- leyan and a defense dominated scene which resulted in a scoreless hockey match.

The Wooster backfield again held the opponents scoreless with outstanding stick work from Paige Russell and Cindy Rutan, backed by the impeccable pads of goalie Marvel Guthrie. However, the game remained a defensive one right up to the final whistle.

With a 4:1-2 the Scots are planning an attack on Oberlin this Tuesday, Oct. 29.
