A GENTLEMAN COMES CALLING

As We Say It —

Union Now?

Today the idea of international union and cooperation is in the air, more than at any point in recent history. Not only do we have in existence the International Labor Union, the Atlantic Alliance, the League of Nations, the Pan-American Union, and the British Commonwealth—all of which are working examples of international solidarity and cooperation among nations, military, or diplomatic levels—but we also share, to a greater extent, the ideas of "Americanism," "American Unity," or "American Commonwealth," which may fairly be described as a "British Union, but in a broader and more inclusive sense."

Unionism, as an intellectual quality, is an individual quality or political or social in so far as it means doing what is possible, through the means at hand, to make human lives as happy as possible. Unionism thrives on the very ideas which it seeks to express.

The present world situation calls for a plasti- city and a new political and social construction, in so far as it means doing what is possible, through the means at hand, to make human lives as happy as possible. We are seeking to make the world as happy as possible. We are seeking to make the world a better place to live in, in which we can all live together and have our livelihoods in the commonwealth.

To this end, we must practice both "cooperation" and "competition," for without them we cannot have a commonwealth. Unionism thrives on the very ideas which it seeks to express. It is a "British Union, but in a broader and more inclusive sense."

While the opening day is the occasion for getting the team ready, no matter how small the starting."
Plan To Cut Traffic Congestion
Will Jankanabaged Jalopies

To clear the campus of abandoned cars, the administration plans to step up curb enforcement and to remove those cars, according to Brian Knox, assistant director of campus security.

"There are at least three on campus now which we believe are abandoned. These owner will be asked to move them," Knox said.

Dr. John R. Weise, dean of students, added that enough money for each car would be the over twenty dollars per month. "After 60 to 90 days, the car will have to be pulled," he added.

Dean Weise went on to explain that there are three causes under which our premises are granted all vehi- cles stands: those renting some space from the campus; those renting some space from students after spring vacations; and those students during the year. Most complications arise from the latter because classification of a Car's status is established by the driving condition of the vehicle in the hands of the driver.

Students were told that devant the administration, cars remain without good cause. When the time comes, the students will be asked to return the car.
