As We Say It...

**Vicarious Aggression**

specker has defined aggression in international affairs as a period of coexisting between two periods of fighting. This period can be very long, even many years. The Korean War is a good example of this type of aggression. It started in 1950 and is still going on today. However, it seems that this type of aggression may be on the decline. Some people believe that world peace is possible and that there may be a future of coexistence and understanding.

There are three main types of aggression:

1. Direct aggression: This is when one country attacks another country directly. It can be done through military action, economic sanctions, or propaganda.
2. Indirect aggression: This is when one country supports another country in its aggression. It can be done through the supply of arms, funding, or training.
3. Aggression by proxy: This is when one country uses another country to attack a third country. It can be done through the use of terrorists, mercenaries, or intelligence agents.

Vicarious aggression is a type of aggression that occurs when one country supports another country in its aggression. It can be done through the supply of arms, funding, or training. This type of aggression may be on the decline. Some people believe that world peace is possible and that there may be a future of coexistence and understanding.

We have just finished reading The Roosevelt Way, by John T. Farrell. It was such a concise piece of anti-Roosevelt propaganda that it almost made me see red. But quite, one thing I wouldn't understand if we did, was the war. Roosevelt cracked nudges and mistakes for the next four days only.

**Keit Plan Again**

by Joe Blunk

This PROGRAM is designed to gather, to do something about the situation on the campus. This is not, something which the Wooster administration is going to do. They are trying to work with Mr. Keit to make some positive changes. The Keit Plan is not going to solve all the problems. It is just a step in the right direction. There are other things that need to be done.

SCOT'S THIRD IN CONFERENCE

Srd. Wins Kenorden Race
Douglass 'F' Takes Tile

Late Kenorden League basketball scores, including those of March 18, show that Third Section's leaders have continued to assert their supremacy over the other conference teams. The regular season ended last night at 8 o'clock. The boys have a record of 16 wins and 4 losses which brings their total to 20 games. The division leader in the conference is WOOSTER with the next best being 17.5. Teachers' College and New York University have won 13 and 12 games respectively.

In this game, the WOOSTER team was led by Bob Clark, the captain. With this game, the WOOSTER team is now 20-11, making them the third best team in the conference. The game was a tough one, with WOOSTER winning by a score of 79-75. The team received a great performance from their new player, Bob Clark, who scored 20 points and grabbed 15 rebounds.

On the other hand, New York University was led by their star player, John Smith, who scored 22 points and grabbed 10 rebounds. Despite their loss, the team showed great determination and resilience, and they promise to continue fighting until the end.

The coaching staff of both teams praised the players for their efforts, and expressed their hope that they will continue to improve in the upcoming games. The next match for WOOSTER is against Teachers' College, while New York University will face off against the leaders of the conference.

Overall, it was an exciting game that showed the strength and skill of both teams. The fans were thrilled with the performance of the players, and the atmosphere was filled with excitement and energy.
